GNSO PDP – Issue Scoping – Existing Engagement Opportunities
If IR is requested by AC
These steps are the same regardless of IR requested by Board, AC or GNSO Council
AC
GNSO Council
ICANN Staff
ICANN Community
GAC
An AC may raise an issue for policy development by action of such AC to request an Issue Report
Announcement sent to the GAC Secretariat for distribution
Transmission of AC request to the Staff Manager and GNSO Council.
Submission of Final Issue Report, including report of public comments submitted for GNSO Council consideration
Transmission of AC request to the Staff Manager and GNSO Council.
45 days or more
Preliminary Issue Report published for public comment (21 + 21 days) - to encourage additional data / information as well as views on whether PDP should be initiated
Acknowledge input received from the GAC and incorporate input into Issue Report
Review of public comments received – revise Issue Report as deemed appropriate and publish report of public comments
Announcement posted to ICANN & GNSO web-site and public comment forum opened
GAC 'Quick Look' Mechanism: establish whether issue has potential public policy implications, flag as such at early stage
Communicate to GNSO/ ICANN Staff outcome of 'Quick Look' mechanism
If potential public policy implications have been identified, form committee to prepare more detailed input to provide to PDP WG once formed
