

I have the interest in helping EURALO through the process of requesting the ABR, to evaluate, and approve or disapprove the different submissions. I have been in the FBSC for two years, as an EURALO member in 2020/2021, and as chair of the OFBWG that conducted the ABR process in 2019/2020. I am actually a member of the OFBWG. And have actively worked in the last years in the ALAC comments of the Budgets and Operational Plans of ICANN.

Kind regards

Ricardo Holmquist
