

DIVERISTY SUB-GROUP

PAPER ON OFFICE OF DIVERSITY PUBLIC COMMENTS

Preamble:

The Diversity sub-group presented a report for public comments that presented diversity at ICANN identified by a number of elements by which diversity may be characterized, measured and reported. The report was informed by feedback from ICANN Supporting Organization(SO)/Advisory Committee (AC)/groups through a Diversity Questionnaire. In the report the Sub-group proposes a number of recommendations by which ICANN may define, measure, report, support and promote diversity. It also indicated that there was a lack of consensus on the establishment on an office of diversity and sought to receive public comments on the position of the office of diversity.

Required Actions:
