Mauro Rios
Erick Iriarte Bruna Martins

Key area of interest:

This project falls under the area of Economic Issues of the LAC Strategic Plan.

Summary:

The idea of the LAC Space project is to organize a session at each ICANN meeting providing a space for regional economic stakeholders to make specific presentations of business related topics; also serve as space for economic stakeholders from the LAC region to meet other stakeholders from other regions.

Objective

- Support participation of regional stakeholders in SOs, ACs and working groups.
- Bring to the ICANN environment the concerns, views, and priorities of the LAC region.

Goals

- Organization of two LAC Space sessions per year, the first one at the Community Forum meeting and the second one at the AGM meeting.
- Networking among LAC stakeholders that participate at the ICANN environment.
- Reporting and sharing of information and views on different aspects and processes of ICANN and related entities and forums, such as the GNSO constituencies, GAC, LACTLD, LACNIC, LACRALO, etc.
- Debate on relevant, ongoing ICANN processes.
 - This debate may allow stakeholders to build some consensus on those issues or, at least, better inform their respective groups and entities (LACTLD, LACNIC, LACRALO, GAC, the GNSO constituencies, ...) on the possible perceptions and positions that are shared by the LAC community.
 - This debate may also better equip the LAC community to influence the ICANN processes in a more structured way, through the different spaces we already have in the SOs, ACs, cross-community WGs and even in the Board.
- Inform the debate that shall take place at the "LAC Sessions on PDPs @ ICANN meetings" (Objective 2.2, Project 2.2.4 of the LAC Strategy).
 - While the "LAC Sessions on PDPs @ ICANN meetings" shall have a deeper view into specific policies, the "LAC Space sessions" shall have a broader view and also address more general or transversal aspects.
- Communicate views and contributions of the LAC community to the broader ICANN community, including Board and staff, where appropriate.
