Day 2 - 9 March 2019**

Steve Conte: I think I'm currently the only one on the phone (ie, no remote RT members)

Jennifer Bryce: Hi Steve!

Steve Conte: Hi :)

Jennifer Bryce: I will say that you are here for the record - sorry about that!

Steve Conte: no worries, I didn't hear anyone else join

Steve Conte: Hi Russ :)

Russ Housley: @KC: You were working on this topic yesterday. Is this proposal in line with your thoughts?

----- (03/09/2019 10:12) -----

Steve Conte: @Eric, maybe base the recommendation on how to improve this currently updated data on DNSSEC?

Steve Conte: [http://stats.research.icann.org/dns/tld\\_report/](http://stats.research.icann.org/dns/tld_report/)

----- (03/09/2019 10:16) -----

Laurin: Thanks Steve. Btw, this gives a cert error.

Laurin: -> stats.research.icann.org uses an invalid security certificate. The certificate is only valid for the following names: \*.icann.org, icann.org Error code: SSL\_ERROR\_BAD\_CERT\_DOMAIN

Steve Conte: @laurin, thanks, I'll pass that on to whoever manages this page internally  
----- (03/09/2019 10:24) -----

Jennifer Bryce: Hi KC, I see your hand  
----- (03/09/2019 10:25) -----

Laurin: Thanks Steve. There are a few ICANN related sites like that, already let root-servers.org know.  
----- (03/09/2019 10:28) -----

Laurin: Sent you the other ones I know of via email.

kc: can you post them here?

kc: i'd like to collate all the relevant links into my data/transparency section

Laurin: You mean the cert issues?  
----- (03/09/2019 10:48) -----

Jennifer Bryce: Taking a break for 10 mins

kc: i mean any other statistics links like the one steve offered

kc: takes a break to eat w kid  
----- (03/09/2019 11:21) -----

kc: sorry backs  
----- (03/09/2019 11:25) -----

Steve Conte: yes  
----- (03/09/2019 11:33) -----

kc: <https://www.icann.org/opendata>

Russ Housley: ... As the framework is developed, milestones and progress will be documented on this page.  
----- (03/09/2019 11:36) -----

Steve Conte: KC, this is what I heard.. did I capture correctly?

Steve Conte: Ask ICANN Ops about ODI to determine current status and location of ODI related items

Steve Conte: ITHI - how is it different from ODI, where does it get its data (from internal collection or external data)  
----- (03/09/2019 11:40) -----

Steve Conte: IRT NCAP: I have just heard that the Board Technical Committee is making a recommendation to the Board and they are currently considering the recommendation

Steve Conte: suggestion to pause name collision wording until after the board meeting in Kobe  
----- (03/09/2019 11:45) -----

Laurin: Thanks Stece.

Laurin: \*Steve

----- (03/09/2019 11:49) -----

kc: ok done w root zone mgt section

kc: steve: yes, and where is it's data. basically i would like a data.icann.org

Steve Conte: thank you

----- (03/09/2019 11:56) -----

Steve Conte: to KC's point about finding data (and eric's comment), it may be worthwhile to call out the difficulty of finding data in logical places, and may be worth exploring a recommendation on that by itself, to umbrella all the other reporting the RT is contemplating

----- (03/09/2019 12:01) -----

Jennifer Bryce: Taking 1 hour for lunch

Steve Conte: Universal Acceptance website (<https://uasg.tech>) is inclusive of IDN

Steve Conte: maybe just switch the wording to UA?

kc: i hopped off, going to put comments in documents

----- (03/09/2019 12:10) -----

Steve Conte: I'm dropping off too.. to load up on cold meds

----- (03/09/2019 13:06) -----

kc: i'm available if anyone wants to discuss any parts of text offline, i am wondering if we shouldn't factor out all the 'define and report metrics and staitistics' on X,Y,Z
