Mary Uduma 2:Can't read the documents.
Mary Uduma 2:I mean the shared document.
Marika Konings:@Mary - please note that this document was also circulated by email.
Mary Uduma 2:Ok
Maureen Hilyard:Marika - how are we supposed to deal with submissions where there are concerns? especially if there are checks and further study to be made of the submission idea
Marika Konings:@Maureen - the CCWG will need to explain how those concerns where already considered and considered addressed, or consider how these concerns can be addressed, whether that is through further checks, further study and/or updates to the report / recommendations.

Marika Konings: In certain cases it may be a new concern that the group didn't think about yet, in other cases, it may be a concern that the group already considered and addressed as part of its recommendations.

Carolina Caeiro: Yes, that sounds OK.

Maureen Hilyard: @Marika its just that there were many submissions where there were concerns - raised either by the submitter? or the leadership team?

Maureen Hilyard: Thank you Marika

Maureen Hilyard: appreciate the clarification

Jonathan Frost: Thanks Marika, Ching, and everyone!
