

Instructions:

This table was built to assist the Sunrise Data Review Sub Team in its analysis as to whether, and how, the previously collected Sunrise data (between December 2016 and March 2018) answer each of the final agreed Charter questions.

Clarifying Note: Staff could not identify previously collected Sunrise data that may be relevant in answering this final agreed Charter question. It is nevertheless included in the Sub Team review as the Sub Team members are welcome to download and reference the actual documents, linked from the **Source Tab** of the [analysis tool](#), to cite relevant information that may help answer this Charter question.

When providing input, please note the source name and page/slide number of the previously collected data.

Sunrise Charter Question 11:

(a) How effectively can trademark holders who use non-English scripts/languages able to participate in Sunrise (including IDN Sunrises)?

(b) Should any of them be further “internationalized” (such as in terms of service providers, languages served)?

| Sub Team Member Name | Do the previously collected data help answer this Sunrise Charter Question? | If yes, which sub question(s) do the survey results assist? | How do the data assist (e.g. “Information X in document Y demonstrate Z”)? | Source Name & Page/Slide Reference |
|----------------------|---|---|---|------------------------------------|
| George Kirikos | No | | (no for first 4 documents, will adjust this later on as we go through the other 8) | |
| Griffin Barnett | No | | [There is a list in the Deloitte TMCH report indicating breakdown of TMCH entries by country, but this does not necessarily speak to IDN issues or help answer this specific question.] | |
| David McAuley | No | | Referring to follow-ups and AG Independent Review of TMCH (but with respect to the latter see Appendix I, top of page 67 for some suggestions for expanded IDN-related criteria.) See also second to last comment on page 67 with respect to question 11(a) | |
