

Instructions:

This table was built to assist the Sunrise Data Review Sub Team in its analysis as to whether, and how, the previously collected Sunrise data (between December 2016 and March 2018) answer each of the final agreed Charter questions.

- In the **Sunrise Tab** of the [analysis tool](#), Staff have included excerpts, as well as the relevant page/slide reference, from the previously collected data that staff believe may assist in answering the final agreed Charter questions. Summaries of the excerpts are included in Column B.
- The excerpts cited by Staff are nonexclusive; Sub Team members are welcome to download and reference the actual documents, linked from the **Source Tab**, to cite relevant information that may help answer the final agreed Charter questions.
- When providing input, please note the source name and page/slide number of the previously collected data.
