reliability issues of the domain name and numbering systems.

2. Demographics. What audience(s), in which geographies, does your request target?

- People charged with the strategic direction of their company (product managers, strategists, marketing leaders, etc.) who need to understand the business impact of the DNS and shape their organization’s preferred role in the DNS value chain.
- Technical leaders who need to understand and address security, stability and reliability issues of the domain name and numbering systems.

3. Deliverables. What are the desired outcomes of your proposed activity?

Broadening the reach of, and participation in, the ISPCP constituency in order to enhance international DNS cooperation, support participation in the multi-stakeholder model and act in the global public interest.

4. Metrics. What measurements will you use to determine whether your activity achieves its desired outcomes?

- Increase in membership from ISPs in Developing Countries
- Number of active constituency members
- Participants in DNS security, stability and reliability policy and technical standards working groups (and follow-on activities that flow from those groups)
- Participants in cross-stakeholder processes in the multi-stakeholder model
