 Michelle DeSmyter:Agenda wiki page: https://community.icann.org/x/VYs2Bg

 Annebeth Lange, co-lead ccNSO:Hi everyone!

 Svitlana Tkachenko:Hello!

 Jorge Cancio (GAC Switzerland):Hi all!

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Jeff is here as well :-)

Jeff Neuman (Overall SubPro Co-chair):at least in spirit :)

Martin Sutton (Co-Lead):Thanks to Justine and Nick for stepping in to help at Kobe.

Julie Hedlund:See the Google doc at: https://urldefense.proofpoint.com/v2/url?u=https-3A__docs.google.com_spreadsheets_d_1WKSC-5FpPBviCnbHxW171ZIp4CzuhQXRCV1NR2ruagrxs_edit-3Fusp-3Dsharing&d=DwIFaQ&c=FmY1u3PJp6wrcrwll3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpCIgmkXhFzL7ar9Qfqa0AIgn-H4xR2EBk&m=ZbN_6GuEhNL0JvLMmvCP28ljmL-vnX9qqMP9KtcACmQ&s=wLq0JzcGfoT0Gk7G7Ys12ynmfEPwfDAKsfU86IQqWzQ&e=

Annebeth Lange, co-lead ccNSO:I am so sorry I could not make it in Kobe, I missed you all

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Indeed @Martin they did a m=ore than Admirable job

Steve Chan:And we are on the 4th tab in the Google doc, Questions for COmmunity Input

Cheryl Langdon-Orr (CLO - PDP Co-Chair):you were also missed @Annabeth

Yrjö Länsipuro:Sorry for being late

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Welcome Yrjö

Mzia Gogilashvili:Hello all

Jorge Cancio (GAC Switzerland):I don't think the summary of comment 1 is ok

Steve Chan:Javier, hand up for just a quick contextual comment whenever there is a break

Jorge Cancio (GAC Switzerland):the concerns are on the "intended use" rule and any extension of it - the concerns do NOT affect the "non-objection" rule

Jorge Cancio (GAC Switzerland):those inputs are quite clear: "In the case of non-capital city names the rule according to which the "non-objection" framework is not applicable when the alleged "intended use" is non-geographic should be suppressed as it ignores the unique character of the TLDs and creates wrong incen-tives to circumvent (i.e. "game") the requirement to contact and obtain the non-objection from the relevant public authorities.Accordingly, we also disagree with any proposals that suggest to extend the "intend-ed use" rule to any other categories of geonames. "

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Thanks @Steve

Jorge Cancio (GAC Switzerland):Thanks Steve for taking that up :-)

Christopher Wilkinson:@Jorge Cancio - +1 CW

Steve Chan:Typo! Is this better: -- Concerns about the intended-use provision for city names and any extension of provision

Annebeth Lange, co-lead ccNSO:We hear you, Christopher

Christopher Wilkinson:Adobe mike not respondsing

Cheryl Langdon-Orr (CLO - PDP Co-Chair):it is we can hear you

Terri Agnew:@Christopher, we can hear you on Adobe - let us know if a dial out on the telephone would be helpful

Javier Rua-Jovet, Co-Lead (ALAC):thx

Jeff Neuman (Overall SubPro Co-chair):@christopher - can you point to evidence that the US is an outlier

John Rodriguez:The US stands by its comments. Appreciate the opportunity to share its perspective in this process.

Annebeth Lange, co-lead ccNSO:The comment period was quite long and everybody had the opportunity to send in their comments. So now, as Martin said, the most important is to see if we have captured the comments correctly.

Martin Sutton (Co-Lead):@John - thank you. It was good to see comments provided from different governments, which are very welcome.

Annebeth Lange, co-lead ccNSO:The text in blue, who has written that?

Steve Chan:For clarity, in the Supplemental Initial Report, the header for section f.1.2.1 states: Who owns a string? Who has rights to a string? What is the appropriate role ofgeographic communities and governments?

Steve Chan:I believe that is what APTLD is referring to rather than Question 1 in this section.

Steve Chan:@Annebeth, the text in blue is primarily a quote of the text I just provided here in AC chat.

Cheryl Langdon-Orr (CLO - PDP Co-Chair):The points raised re 1591 can be well discussed when this goes to the full WG (it is not so mush a "new Idea" as such but rather an important distinction regarding the delegation and management of a TLD as difned by RFC1591

Jorge Cancio (GAC Switzerland):I feel that on the definition question it should be understood that the line of comments coming from Switzerland etc. support the 2012 categories, although with the caveat that additional geonames should be covered

Jorge Cancio (GAC Switzerland):the summary should be amended as before...

Steve Chan:@Jorge, on top of it!

Martin Sutton (Co-Lead):@ Jorge - note your point but is that captured in the notes "for non-AGB terms, extend non-objection provision

Christopher Wilkinson:The INTA position is too restrictive: there are thousands of geographical names that would be excluxded on that basis.

Jorge Cancio (GAC Switzerland):I feel the lists are interesting and useful for those geonames not explicitly covered by the 2012 categories - they could be used by an Advisory Geographic Names Panel...

Jorge Cancio (GAC Switzerland):the RrSG suggestion mixes definition with _"intended use"... not very useful...

Cheryl Langdon-Orr (CLO - PDP Co-Chair):We are at Line 34 of the GDoc and bottom of page 6 in the AC room

Cheryl Langdon-Orr (CLO - PDP Co-Chair):now top of page 11 in the AC room

Steve Chan:Note, staff has generally not pulled the Concerns, New Ideas into the summary. The expectation is that those elements will be considered substantively during WT5 deliberations, after this comment review/sorting exercise.

Annebeth Lange, co-lead ccNSO:Thanks, Steve, that is clarifying.

Terri Agnew:finding the line

Martin Sutton (Co-Lead):Thanks Steve - and we should also note that much of the substance has been covered during WT5 deliberations over the past year.

Martin Sutton (Co-Lead):@Marita - could you direct us to the ALAC comment that makes the point you mentioned?

marita.moll:@a Martin -- just looking at the full text of the response

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Perhaps a time check and gpt to AOB etc Now... rather than the next section

Martin Sutton (Co-Lead):Thank you marita - happy to revise where we can identify in the comments

Cheryl Langdon-Orr (CLO - PDP Co-Chair):So we would start at line 55 in the GDoc next call (bottom of page 12 in the AC doc being shown)

Ricardo Holmquist:Gracias Javier

Steve Chan:Next call: Wednesday, 03 April 2019 at 20:00 UTC for 60 minutes

Annebeth Lange, co-lead ccNSO:Thanks, Javier

Cheryl Langdon-Orr (CLO - PDP Co-Chair):Thanks everyone... Bye now until our next call on the 3rd April....

John Rodriguez:Thanks Javier for leading the call and thanks to Staff for preparing the document.
