From: Theresa Swinehart
Executive: Theresa Swinehart

INFORMATION SHARING
Appreciating how busy everyone's schedules, I wanted to just let you know that the Global Commission on the Stability of Cyberspace (GCSC) is holding its meeting around ICANN64. The GCSC plans their closed meeting for its commissioners in Kobe at the Portopia Hotel on Saturday, 9 March. To take advantage of being in Kobe, many commissioners will remain in Kobe following this meeting and would welcome discussions with any SOs/ACs or stakeholders that may be interested in the GCSC's work. For background and context, information on the GCSC can be found here.

I have copied on this message Alexander Klimburg <alexklimburg@gmail.com>, Director of the Initiative, who would be happy to facilitate contacts with the GCSC in Kobe, together with Wolfgang Kleinwächter <wolfgang@kleinwaechter.info> who is on the GCSC.

FOR: All Community Leaders

INFORMATION SHARING
The Technical Study Group on Non-Public Registration Data (TSG-RD) will be holding a public engagement session on Monday, 11 March, 13:30-15:00 in Portopia Hall. I'd like to invite the members of your groups to attend that session and provide feedback on our draft technical model for access to non-public registration data, which we intend to share with the community prior to ICANN64.

As most of the TSG-RD members will also be in Kobe, if you are interested, we'd like to offer to provide your group with a short briefing on our work during the meeting week and hear your feedback. If you would like to schedule time with us, please let me know <rmohan@afilias.info> and copy Diana Middleton <diana.middleton@icann.org> and Eleeza Agopian <eleeza.agopian@icann.org> from ICANN org, as they will help to coordinate our schedules.

Updates

LAST DAY: ICANN64 Prep Week, 25-28 February
ICANN org is piloting a new initiative called Prep Week to consolidate all pre-ICANN Public Meeting webinars into one week. Starting with ICANN64, Prep Week will streamline the pre-meeting experience, so deeper conversations can be had in sessions. There are four webinars scheduled for ICANN64 Prep Week. Learn more here.

Looking Ahead: New Travel Support Timeline
Starting with ICANN64, all travel support requests are now due 120 days prior to the next ICANN Public Meeting. This was previously a 90-day deadline. Therefore, the deadline for ICANN66 travel support is

5 July 2019. If applicable, community groups will need to adjust their election timelines accordingly to ensure new leaders are eligible in time for the ICAN66 travel support deadline.
