Information Sharing

NEW: Post-ICANN65 Policy Report Now Available

Executive: David Olive, Senior Vice President, Policy Development Support

FOR: All Community Leaders

INFORMATION SHARING

The [Post-ICANN65 Policy Report](#) written by the ICANN Policy Development Support team captures decisions and outcomes from the Supporting Organizations and Advisory Committees. While the report provides an overview of activities held during the Policy Forum, it also looks ahead at the work to come in the upcoming months. Included in the report are various resources to support the ongoing, sustained engagement of the community on several important issues.

REMINDER: NextGen@ICANN Survey

Executive: Sally Costerton, Senior Adviser to President and Senior Vice President, Global Stakeholder Engagement

FOR: All Community Leaders

INFORMATION SHARING

The ICANN organization is initiating a [community consultation](#) to identify improvement opportunities for the [NextGen@ICANN Program](#). The review will start with gathering community input via a survey about several aspects of the NextGen@ICANN Program, including its purpose, goals, processes, and synergies with the ICANN academic community. The [survey](#) (PDF with background at the beginning and questionnaire questions at the end) is intended for all ICANN community groups; individuals are encouraged to work with their relevant Supporting Organizations, Advisory Committees, stakeholder

groups, and constituencies. Responses are due Monday, 9 September.

Based on the input received from the survey, ICANN org will draft a proposal for program improvements that will be published for Public Comment. Once all feedback is received, ICANN org will prepare the final proposal for program improvements.

REMINDER: Update and Information on IRP IOT Re-Composition

Executive: John Jeffrey, General Counsel

FOR: All SO/AC Chairs

INFORMATION SHARING

As the ICANN Board committee with oversight responsibility of ICANN's accountability mechanisms, the Board Accountability Mechanisms Committee (BAMC) considers the work of the [Independent Review Process (IRP)] Implementation Oversight Team (IOT) to be paramount to ICANN's accountability...we seek your help in finding additional volunteers within the community that meet the qualifications identified in the attached letter, outlining skills and experience requirements, to join the IOT and help to conclude its work in a timely fashion. [Read more.](#)

REMINDER: Planning Assumptions for Subsequent Procedures for New gTLDs

Executive: Cyrus Namazi, Senior Vice President, Global Domains Division

FOR: All Community Leaders

INFORMATION SHARING

In December 2015, the GNSO initiated a Policy Development Process (PDP) to determine if changes to existing policy recommendations are needed before the next round of gTLDs. The PDP Working Group expects to publish its final report with its recommendations by December 2019. These recommendations may lead to procedural changes for subsequent rounds of gTLD applications, which ICANN org must implement and manage. In the course of our preparatory work toward the planning and implementation of the new policy, ICANN org has compiled a number of fundamental operationally focused assumptions to help with the preliminary planning and operational readiness of the organization. These assumptions have been shared with the ICANN Board, and now ICANN org would like to share them with relevant parts of the community.
