PDP 3.0 is a GNSO Council initiative designed to enhance the efficiency and effectiveness of the GNSO policy development process. The GNSO Council has endeavored to develop proposed implementation of 14 improvements of the PDP 3.0, including potential changes to how the ICANN community participates in GNSO working groups and mechanisms to review working group leadership. By the webinar date, proposed implementation documents for 12 out of 14 PDP 3.0 improvements will have been developed. The GNSO Council also reached out to all SOs/ACs, soliciting written input by late November.

This webinar will provide details to the PDP 3.0 implementation, as well as opportunity for all participants to ask questions and provide further feedback. Taking into consideration the input received, the GNSO Council plans to finalize all implementation documents by January 2020.

**REMINDER:** NextGen@ICANN Community Consultation  
**Executive:** Sally Costerton, Senior Vice President, Global Stakeholder Engagement  
**FOR:** All Community Leaders

**INFORMATION SHARING**
The NextGen@ICANN program is currently undergoing a [community consultation](#).

One request from the preliminary feedback received to-date was for ICANN org to explore the feasibility of having community volunteer representatives from Supporting Organizations (SOs), Advisory Committees (ACs), Stakeholder Groups (SGs), and Constituencies (Cs) to nominate individuals for the following two roles:

1. NextGen Selection Committee members  
2. NextGen mentors

For the Selection Committee, a time commitment of approximately 20 hours over three weeks is required (for each application round). Selection Committee members will typically serve for two years (or six application rounds).

Mentors are expected to devote approximately 24 hours to pre-ICANN Public Meeting preparation with their mentees, to offer advice, networking support, and regular check-ins on-site, and to complete evaluations following the ICANN Public Meeting. Based on previous estimates, mentors spend about two hours per week during the six-week preparation period in advance of the meeting and about two hours per day providing on-site support at the ICANN Public Meeting. Mentors will typically serve for one year (or three meetings).

Is your group interested in nominating individuals for either of these roles? **By Monday, 16 December 2019, please take the following poll** to help ICANN org gauge the level of community interest. The findings of this poll will inform the proposed NextGen program approach that will be published for Public Comment.

**Note:** You will not be asked to submit the names of potential volunteers for roles at this time.

**REMINDER:** ICANN Fellowship Program Mentors  
**From:** Sally Costerton, Senior Vice President, Global Stakeholder Engagement  
**FOR:** All Community Leaders

**INFORMATION SHARING**
ICANN's Supporting Organizations (SOs) and Advisory Committees (ACs) are [invited to nominate](#) one individual each (total of seven) to serve as a mentor in the ICANN Fellowship Program.

Mentors will serve a term that includes three consecutive ICANN Public Meetings, beginning with ICANN68. They will provide extensive pre-meeting preparation and on-site support for their assigned fellows, as well as complete a survey after each meeting.

Mentors are expected to follow [Fellowship Program guidelines](#) to help ensure consistency in capacity development opportunities for fellows. They also play an important role to help fellows actively participate in ICANN's work. Mentors will receive travel funding support.

Mentors cannot serve on the [Fellowship Program Selection Committee](#) at the same time they are serving as mentors. For more information on the guidelines and expectations for mentors, please read
about the program here.

SOs/ACs should first select their respective Fellowship Program mentor by Thursday, 31 January 2020, and notify fellowshipconsultation@icann.org. Individual self-nominations will not be considered.
