ICANN67 Planning

DUE TOMORROW: Areas of Interest from the ICANN Board for ICANN67 Constituency Day

From: Maarten Botterman, ICANN Board Chair

ACTION ITEM

As we continue working with you on the format of our engagement with your groups, we would like to experiment a new way of interacting by offering you to choose one or two area(s) of interest and having an open discussion with the Board on those, instead of asking you to come up with specific questions.

We are also suggesting that the list of areas of interest be shared with the entire Community using this digest, in order to increase transparency and allow the groups to improve their own understanding of their peers' point of views on different issues.

As for time allocation, we propose to allocate the first part of our time together to be spent on your specific areas of interest, and to allow sufficient time to address the areas of interest indicated by the Board, if they have not been covered by that time. So you are aware, we are not changing the current total time allotted per group.

In preparation for our meetings, the Board proposes the following areas of interest to have an open discussion with you:

1. Key priorities for action of ICANN constituencies in 2020 (e.g. prioritization of recommendations, streamlining of reviews, improve effectiveness of ICANN's multistakeholder model, ...)
2. Specific developments coming up that ICANN constituencies feel need to be addressed when updating the ICANN Strategic Plan.

We would be very grateful if you could send Board Operations board-ops-team@icann.org, your area(s) of interest, in order of priority, no later than **Friday, 28 February 2020**.

We look forward to hearing your thoughts on our suggestions and on how to further improve our interaction. We thank you in advance for your time on this matter.

Members of ICANN community groups with a view on the subject are invited to fill out and share the questionnaire at <https://icannprds.typeform.com/to/ehG295> before **Friday, 20 March 2020**.
