NEW: Registrant Program Update: New Report on Registrant Issues and Challenges

From: Brian Gutterman, Registrant Program Manager, Global Domains Division (GDD)

On 19 May 2020, the ICANN org [Registrant Program](#) published the [third edition of its ongoing reporting series on Issues and Challenges Impacting Domain Name Registrants](#) containing updated data (from the reporting period of September 2019 – February 2020) from the ICANN Global Support Center (GSC) and Contractual Compliance. The report also provides observations of registrant issues and challenges from GSC and Contractual Compliance based on their interactions with registrants.

As always, we encourage everyone to take a look at the report and share any data you might have regarding issues impacting [registrants](#) to inform ongoing conversations and work. We'll continue to work with departments across the organization who engage with registrants to gather and analyze data on an ongoing basis in addition to publishing similar data online at icann.org/registrants as part of our broader effort to raise awareness about the issues and challenges registrants face.
