**NEW**: ICANN Publishes New Report on Domain Registrations Related to COVID-19

ICANN is pleased to announce the publication of a new report, Registrations Related to COVID-19: 18 Months of Data through its Office of the Chief Technology Officer (OCTO). The report outlines one of ICANN's many efforts to keep the Domain Name System (DNS) secure, stable, and resilient. The report
found that, depending on the strength of evidence required, between 1.8% to 6.1% of domains examined could be involved with phishing or malware.

**NEW:** DNSSEC Deployment Guidebook for ccTLDs

ICANN announces the publication of the report DNSSEC Deployment Guidebook for ccTLDs through its Office of the Chief Technology Officer (OCTO). [Read the report here.]

**NEW:** Join ICANN's Discussions at the 16th Internet Governance Forum

Members of the ICANN community, Board, and organization (org) will participate in the [Sixteenth Annual Meeting of the Internet Governance Forum (IGF)](https://www.intgovforum.org/en), to be held as a hybrid meeting from 6 to 10 December 2021. Hosted by the government of Poland, this year's overarching theme is: "Internet United," conveying that the Internet connects all its users into one community, responsible for its shape and functioning.
