## ICANN77

Starting with ICANN77, we have a change to our typical pre-meeting routine: we are not printing any materials; we are only going to be designing and translating meeting collateral.

### 27 April 2023 | DESIGN DEADLINE:

If you require design assistance for your publication, you need to provide all the text, images, layout, and publication type/size requirements (i.e. newsletter vs. 1-pager vs. trifold, etc.). You will receive a maximum of 2 iterations of the publication. Please provide everything by **27 April**. Please keep in mind that all materials, new or updated, need to be evergreen.

### 11 MAY 2023 | TRANSLATION DEADLINE:

If your publication requires translation, please provide the final material(s) by **11 MAY**. This ensures that there is enough time to translate the publication by the start of the meeting, with the possibility of potential changes to said translations. If your materials require design assistance (outlined above), please note that the final materials will have to be complete, including the edit/approval process, by this deadline to be translated.

All content/requests can be sent to [andrea.glandon@icann.org](mailto:andrea.glandon@icann.org)

### **□ ACTION ITEM: SOs/ACs to provide feedback on Fellowship Program outreach and promotion goals**

SOs/ACs are asked to contribute to the Fellowship Program's strategy for outreach and promotion by providing feedback on suggested diversity targets for the Fellowship Program. Interested community groups should complete [this form](#) and send it via email to [Siranush.Vardanyan@icann.org](mailto:Siranush.Vardanyan@icann.org). Groups should aim to return the forms by **15 May 2023**.

The ICANN organization regularly updates its strategy for targeted outreach and promotion for the Fellowship Program. SOs/ACs are being asked to provide guidance on diversity goals for the program. These may include, but are not limited to, skills and experience, stakeholder group affiliation, region, gender, and language. ICANN org will use this list of goals to inform the program's outreach and promotion strategy. Input is welcome on any specific local, regional, or global events where promoting the Fellowship Program would help identify strong candidates. These goals will be revised by the SOs/ACs every two years.

□ **ACTION ITEM: Sign up for Strategic Outlook Identification Sessions**

ICANN's FY25 Planning Process has started, beginning with the strategic outlook program. We are looking for participation from community members in the trend identification sessions through their Supporting Organization (SO) or Advisory Committee (AC). **ICANN will collaborate with SO and AC chairs and support teams to schedule sessions from March through May 2023.**

This program is a joint effort of the ICANN ecosystem to identify and track trends that are related to ICANN. This ensures that the opportunities and challenges are incorporated into current and future planning.

Once trends are identified, ICANN will conduct a trend analysis and impact assessment. Significant shifts could result in adjustments to the strategic plan. Moreover, new trends or shifts in existing trends also impact the operating plans (five-year or annual) and/or budget, and are factored into the annual iteration of those plans as appropriate.

All strategic outlook sessions will be conducted virtually, and community members are encouraged to join this important discussion. We look forward to your participation in this dialogue about ICANN planning and strategy.

Thank you for your support in the ICANN planning process.
