Nominee Statement of Erich Schweighofer

I am strongly active in civil society activities, mostly in the scientific environment. Thus, I would contribute to the multi-stakeholder model of ICNAN and strengthen the At-large Community. Concerning ICANN knowledge, I may point out that I am doing research in Internet governance for about 20 years, in particular from an international law perspective. I have attended many ICANN conferences (on-site and remotely). I am/was a member of the CCWG on Accountability (WG jurisdiction and human rights); GNSO-newgtld-wg-wt5, Finance-sc; CCWG Internet Governance. In EURAO, I am active since 2016, in the last years also as Board Member, being active on outreach and bylaws. As NomCom Delegate 2018/19, I learnt a lot about this important and challenging activity. Thus, I would like to continue and use the experience gained in this year. Further, I would contribute to outreach of NomCom, the transparency, and develop and apply the selection criteria of integrity, objectivity, intelligence, sound judgment group decision-making and cultural and geographic diversity.
