Dear Claudia,
Thank you for the reminder and your help with this process.

Maybe we may use my Statement of interest (Nominee) which I have sent earlier?

Statement of Interest - Natalia Filina.

It is a big honor to be nominated for the position of Secretary. This means much more than just the responsibilities and functions of maintaining the institutional order in my community (my big kind family). For me it is a direct way to participate in the development of EURALO and the opportunity to grow my competencies working next to the Chair of EURALO and legendary people who are already my talented mentors from the first day. Now is the time of big opportunities. For sure that all the discussions we have are the abilities of the positive transformation of EURALO in the very near future, a new phase of the real constructive changes and joint activities (I see the real big force in our collaborative actions with MOU organisations, RIRs under the At-Large umbrella). We have come close to the issue of expanding community, the participation in politic processes and the stimulating of the activities. All our actions are aimed at numerical and quality expansion of membership. We do EURALO stronger with close relation to other RALOs` initiatives.

The confirmation of my ability to be effective and useful part primarily is the opinion of the best At-Large people, the core and the heart of the community. I am so proud to work with them. The second rate is the participation in the work on the Subcommittee on O&E, Euroindividuals' Involvement Working Group (EIWG), Capacity Building WG, ATLASIII Leadership Team WG. The same time I am on the position an Officer in SIG IoT (ISOC).

I very appreciate your trust and prospects to work with you in the future.

Best regards,
Natalia
