

As requested by Kurt:

As the ALAC Liaison to the GNSO from 2006-2014, I was regularly involved in things related to WHOIS.

I have worked with Contractual Compliance related to understanding WHOIS and how Compliance addresses complaints related to WHOIS.

I have been a member of the GNSO RDS PDP for the last two years and I have been active in all of the efforts within ICANN to address GDPR.

As a Member of ATRT2, I was responsible for the analysis of the WHOIS1 Review recommendations and implementation and at the moment, I am chairing the RDS-WHOIS2 Specific Review.

Alan
