

I am Stephanie Perrin; I was recruited to join the Experts Working Group (EWG) at ICANN as a privacy expert in 2013. Since then I joined the NCSG and have served four years on GNSO council, on the Privacy Proxy Services Accreditation Working Group, on the IAG for the WHOIS Conflicts with Law, on the RDS PDP (dormant at the moment) and on the RDS II Review Team. During this time I wrote my doctoral dissertation on the contention between data commissioners and ICANN on the WHOIS directory (University of Toronto, 2018). I worked for 30 years in the Canadian federal government, largely on privacy and IT policy issues, including two years as Director of Research and Policy at the Office of the Privacy Commissioner of Canada. I am currently working on a research project funded by that office, to study the feasibility of standards to facilitate third party access to personal registration data.
