

Hello Kurt, all -

My name is Ashley Heineman and I am currently the US representative to the GAC, employed by the National Telecommunications and Information Administration (NTIA) at the US Department of Commerce. Over the last ten years I've been responsible for overseeing the management of .us, .edu, and the technical aspects of the IANA functions contract (obviously not any longer!) including their respective WHOIS related requirements. Over the course of the last year (plus), I've worked intimately with US government agencies deliberating on GDPR and its impact on US government, industry, and consumer WHOIS access needs. I am currently on the PP IRT and a member of the RSSAC Caucus (not representing either on the EPDP).

I look forward to working with you all (for apparently many, many, many hours) and hope for fruitful and constructive engagement.

Ashley Heineman
US GAC Representative
