

Arnaud Wittersheim

Hello everyone,

My name is Arnaud Wittersheim, one of the alternate representing the RySG in the ePDP process. I work at Nameshield, a european company specializing in intangible asset protection, as new gtlds project manager and compliance manager on topics such as GDPR. I have over fifteen years of experience in the domain name industry on registry and registrar topics and thus a rather good view of policies and contracts such as the RAA and RA. I have attended several ICANN summits as an observer, including those in Vancouver and Panama this year. This is my first participation in a consensus policy development process. I hope that my skills can be useful for the ePDP whose success I wish.

Looking forward to working with you all

Thank you

Arnaud Wittersheim
