Proposed Renewal of the .asia RA.

* proposing the inclusion of UA – IPV6 and DNSSEC already included

* DotAsia Board as well as by ICANN Board support for UA and the UASG project

* ALAC support – for more recognition for UA worldwide & ALS outreach

* SubPro support? inclusion of UA in the next round?

* UA raised in Auction Proceeds WG
    - interesting discussion on the APWG chat
    - UASG project focuses on raising awareness among governments and IT Orgs
    - "Internet applications and systems should treat all TLDs, including new gTLD and internationalized TLDs, in a consistent manner"
    - cost of incentivising software companies towards ensuring UA compliance not met by ICANN
