

MARRAKECH – SSR2 Review Team (Day 1) [C]

MARRAKECH – SSR2 Review Team (Day 1) [C]
Saturday, June 22, 2019 – 09:00 to 17:30 WET
ICANN65 | Marrakech, Morocco

UNIDENTIFIED FEMALE: Good morning, everyone. Welcome to Marrakech. This is Day One of the SSR2 face-to-face meeting on Saturday, the 22nd of June, 2019. Let's go around the room. Please introduce yourselves for the recording.

LOREN: Loren [inaudible]

NORM RITCHIE: Norm Ritchie.

MATAGORO JABHERA: Matagoro Jabhera.

[JACQUES]: [Jacques] [inaudible]

CHARLA SHAMBLY: Charla Shambly.

Note: The following is the output resulting from transcribing an audio file into a word/text document. Although the transcription is largely accurate, in some cases may be incomplete or inaccurate due to inaudible passages and grammatical corrections. It is posted as an aid to the original audio file, but should not be treated as an authoritative record.

NEGAR FARZINNIA: Negar Farzinnia, ICANN org.

UNIDENTIFIED FEMALE: Loren, why don't I turn it over to you so you can walk us through the SOI updates, please, and kick off the meeting.

LOREN: Hi. The roll call indicates that there's not many people in the room right now. Accordingly, our objectives for the next two days will be on continuing working on substantial matters – recommendation text, findings text, and working through our discussions. Most of this meeting will likely be writing sessions, so there's not much in plenary, also due to the fact that we're so few people to actually discuss this.

The idea is today is that, after going through this introductory recorded bit here, we will go into a writing group and work through report text. Then, hopefully, with enough members present, we can have a more plenary-type call, probably tomorrow in the afternoon, where most people should be able to at least join for a little bit.

Apart from that, I think there's not much I can say. Maybe if Negar could give us a quick update on the technical writer, even though I doubt that. In two days, much has changed.

NEGAR FARZINNIA: Thank you, Loren. Before I give the update on the technical writer, I just wanted to note for the record that [Ram Christian] is also in the room, joining us remotely.

With that, for the technical writer, if you recall, the review team decided to proceed with the candidate we had provided to you. The technical writer is going through the contracting process now. It's progressing rather well. The contract is not quite finalized yet, but it's just a paperwork process at this point. We will let the review team know as soon as the contract is fully signed and everything is ready to go.

LOREN: Thank you. With that being done, I believe there is not much left to do right now, apart from getting to work.

UNIDENTIFIED FEMALE: Thank you, Loren. If the review team members are going to break into working groups to continue your write-up on findings and your research, we will stop the recording here. At the start of tomorrow's face-to-face meeting, we will do a recap of the work that is going to be done today for the purposes of recording and for transparency and to much sure that everyone is aware of the updates. Thank you.

[END OF TRANSCRIPTION]
