Dear Claudia,

Thank you for your email.

See the below expression of a statement per your request:

=====

Wale Bakare- Expression of Interest

I would like to crave the indulgence of the EURALO community members to present this Expression of Interest for the role of EURALO Secretariat.

I have been an active member of EURALO and At-Large Community and the current EURALO Secretary.

I would like to seek your support to allow me to continue contributing to the EURALO community as the Secretary, in order to help the ICANN At-Large, on issues sine qua non to the growth of internet such as protection of the Internet technology infrastructure for, its continual sustainability for the billions of global internet end-users.

As a Senior Application Research/Support engineer at one of the UK government's agencies; my business as usual (BAU) includes assisting the agency on cybersecurity issues. As a member of the agency's cybersecurity and assurance team, I work daily on security incidents like phishing, malware as well as other suspected communication messages targeted against the government staff.

I am currently volunteering as one of the EURALO representatives to the ALAC Finance and Budget Sub-committee; and to the CCWG Auction Proceeds; NomCom Review Implementation Working Group (NomComRWIG); At-Large

Social Media Working Group, and ATLAS III Capacity Building Sub-Group.

At this crucial time of the global interconnectedness of the internet, I strongly believe that I have got the experience and knowledge can contribute to the work of the EURALO Chair, EURALO Board, and EURALO community members as well as assisting to achieve and implementing the organization's strategic plan as relating to the core ICANN business over the coming years.

In addition, included here, a link to my SOI can be perused at <https://community.icann.org/display/atlarge/Wale+S+Bakare+SOI>

Thank you in advance for your support and consideration.
