

ATRT3 Questions to ALAC

- Are your community members satisfied with their interaction with the GAC?
What types of improvements would your community like to see implemented?
- What kind of representation challenges does ALAC face, in terms of the diverse stakeholder group whose interests it represents, and how does it aim to mitigate these challenges, and maintain accountability to global Internet users?
- What is your perception of transparency within the policy development process, including the EPDP?
- Is there anything else you'd like to share from the perspective of accountability and transparency?
