

UA EAI WG Meeting

07 March 2023

Attendees

Abdalmonem Galila
Athanase Bahizire
Jim DeLaHunt
Harsha Wijayawardhana
Arnt Gulbrandsen
Seda Akbulut
Yin May Oo

Agenda

1. Welcome and roll call
2. Plan the ICANN76 main week session and [slide deck](#) on EAI SelfCertification Guide
3. Complete the EAI [self-certification guide](#) by resolving comments.

[Meeting Recording](#)

Meeting Notes

This meeting is to focus on preparing the slide deck for the ICANN76 meeting. Jim asked for five minutes of time to go through the EAI self-certification guide.

EAI self-certification guide

Jim started to talk about the comments from the appendix, page 45 of the document. It was suggested advising the self-certifiers to send the test results to info@uasg.tech email. Jim explained how to submit the test results of EAI self-certification tests and get the result as silver, gold, or platinum level.

Harsha questioned and suggested adding more explanations for each test case for people with less experience. Arnt answered that there is no immediate plan to add explanations so far. Jim added a comment-note on adding or sharing experiences of going through the EAI tests later on according to the suggestion.

Harsha expressed that adding more information on the test cases would help. Jim expressed that Harsha who did the tests on the actual email system would have more input to contribute, which makes Harsha the most suitable person to answer questions in the future, so a forum might be a possible channel in the future. Jim also suggested having a dedicated url for submitting the EAI test results, rather than just giving them the UASG email address. Seda shared that there already is a dedicated url for the EAI self-certification as [<https://uasg.tech/eai-certification/>].

Harsha said we need to have the document on the site as well. The guide document can be shared with the scoring sheet and other items together.

For the presentation at ICANN76 meeting

Plan is to explain the motivation behind the EAI self-certification guide and present information about it. There would also be polls to ask for audience opinion. Jim suggested adding an additional slide explaining the terminology of EAI and the results as gold, silver or platinum, where people could be involved by voting the choice of term. Harsha suggested giving real (actually working) IDN email addresses instead of UA example email addresses. There would also be a slide with QR code which would link to the [<https://uasg.tech/eai-certification/>]. Jim also suggested adding the email address info@uasg.tech as a backup. Jim would like to focus on listening to the audience's opinion, asking what would be the best way of inviting people to share feedback. There would be a Q&A slide. One or two slides from each presenter would be added as well.

This is the last EAI working group meeting before the ICANN76.

There will be more than 50 UA-day events happening by the end of March.

Next Meeting: TBD, 2023

No	Action Item	Owner
1	Finish the score-calculating spreadsheet	Arnt
2	Collect questions on Dovecot	Harsha
3	Adjust the final details before the presentation at ICANN76	Jim and presenters
4	Maintain the URL https://uasg.tech/eai-certification for future issue submissions and feedback	Seda
5	Request for creating a new URL https://uasg.tech/eai-certification ; point the URL to Google Doc, or place the guide on this page	Seda / Arnt
