Meeting Notes

Agenda#2: ICANN80 Slides

The group went through the draft slide deck to be presented at Community Update session on ICANN80. Revisions are done on the slides.

Nitin shared the logo designs:

Agenda#3: EAI Self-Certification Program

EAI Self-Certification Guide v.1 has been reviewed before the publication and the issues were noted for updating before the publishing. Mark SV noted that the score generator on the wiki page should be editable.

Regarding the program details, MarkSv suggested focusing on what's doable rather than the ones that may be creating some issues in implementing due to policy conflicts.

MarkSv and the group reviewed the tasks and numbering on the [Plan Document](#).
