Meeting notes:

Mohamed started the meeting and indicated that Mark Sv. (Chair) has apologized and was not able to join this week's call.

Mohamed and Jim provide an update to the group on the outcome of the conference call with David Singer, member of WHATWG WG and Apple. The following attended the meeting:

Apple Team:

- David Singer, Manager of Software Standards
- Alex Christensen, Software Developer
- Theresa O'Connor, Safari Web Technology Engineer
- Diane, operations group

Please check if the names and titles are correct. I missed capturing Diane's last name.

ICANN Team:

- Chris Mondini, Vice President, Stakeholder Engagement (Staff)
- Jim DeLaHunt, member EAI WG, EAI inventor project (Community)
- Mark Svancarek, Chair EAI working group (Community)
- Mohamed Elbashir, UA Program Manager (Staff)

The notes including the following:

- The Universal Acceptance (UA) of domain names and Internationalized email addresses is a critical step towards diversity, inclusion, and multilingual global Internet.
- ICANN's team presented the current UA and EAI issues
- David Singer indicated that Apple has been actively working on the Internationalization of its products and services and that this work might not be publicly visible.
- David Singer to coordinate with Jim DeLaHunt to add the details of Apple's products to the EAI inventory research project
- There is progress in the EAI validation issue in WHATWG, it was agreed to continue following up the discussion. ICANN's community has prepared a draft letter to be addressed to WHATWG to show the technical community and browser's vendors' support. Find the letter attached, it was shared with Microsoft and will be sent with Mozilla and Google's chromium team.

The group continued drafting a new SOW related to the WG FY21 project priority E5: EAI Technical education and Awareness to the developers' community via Q&A websites

The draft document is available in Google drive:
