   Considerations and recommendations for EAI readiness self-certification by Software vendors
   https://docs.google.com/document/d/1mjdan7lD0aplQcwwVMPB3Ci2yJu-7snz/edit [docs.google.com]
4. AOB

Meeting notes:

Mark Svancarek (Chair) welcomed the members and the newly appointed vice-chairs Abdelmonem and Nitin. Mohamed (ICANN Staff) presented a quick overview of the WG progress in the last 6 months based on FY21 plan.

The group discussed the objective or the EAI self-certification document, and what systems or tools to be included in the document, whether to consider core email tools (e.g MUA, MDA, MSA, ..etc) only or add email utilities (e.g contact address, mailing-list,..etc).
The group also discussed using the current levels of EAI support (e.g EAI level 1 and EAI level 2) or introducing new levels, for example, Gold for offering EAI service and hosting it, Silver for providing EAI service but hosting.

To speed the document drafting the WG agreed to start meeting weekly from next week (Tuesday 19 January 2020).

The next meeting: Tuesday, 19 January 2020 at 17:00 UTC (60mins)

The Action Items:

No.	The meeting Action Items	Owner
1	*Continue the discussion and drafting of the* EAI Support Self-Certification Document	*WG members*
