2) FY23 Measurement WG planning – by 15 May
3) AOB

Meeting Notes

Nabil shared a short overview of the last time discussion points regarding FY23 Measurement WG Planning. Seda shared the date for prep week meeting which is 2nd of June. She mentioned that the main agenda items of it will be sharing of each WG planning for FY23.

Seda shared contracting status for Web Hosting tools which will start from the beginning of May. For identity platforms she shared that proposals have been received from vendors and are under review. Regarding E-Commerce Seda and Nabil both agreed to start working on it.

Nabil asked Seda about the progress of other WG on academia curriculum tasks. Seda shared that all WG are working on it. EAI WG has completed its planning for FY23.

Seda shared the UA Readiness Evaluation of Standard and Best Practices presentation with Nabil. Seda shared it was compiled by Mark in collaboration with a company. Nabil read the IETF part and asked for clarification related to modern emails. Seda shared about other organizations in which UASG needs to put interest. She shared the "UASG interest" prioritization matrix. Nabil asked Seda if she could share the document. Seda responded that she will share it by next week.

Seda shared another document related to short analysis of each organization and how those can be interacted.

Seda and Nabil started working on FY23 planning and agreed to put important work items in the blog table. Vadim asked Seda to explain email environments in point 10 of the document. Seda clarified that point by stating that this point was added by Jim. Jim had suggested adding those email providers which are not that known and are doing better in EAI and UA readiness. It will put a pressure on other known email providers.

Nabil and Seda agreed to add the UA Readiness Annual Report as well. Seda and Nabil prioritized the tasks in the table after discussion on the nature of each task. Seda asked Nabil if the task of testing websites and collecting data from websites can be merged to make 1 task as they are related. Nabil agreed on that. Nabil and Seda agreed to continue reviewing the compiled table in the next meeting with others.

Seda shared the status on UA Day Working group creation by Dr. Data. Seda shared that some of the tasks can be started from this semester as well as there is nothing in this semester.

Next meeting: Thursday 5 May 2022 UTC 1400-1500
