

Building Block n) (Financial sustainability)

The EPDP Team recommends that [TBC]

Comments / concerns / questions to be considered in relation to building block n):

- *Consider when to consider this question in further detail, in the early stages or after a number of fundamental questions have been answered?*
- *All considerations of demand, expectations, likely outgoings, funding, sustainability, staffing, enforcement, cost benefits analysis etc. should be considered by the EPDP Team and approached from a realistic point of view.*
- *Consider whether commercial entities should pay for access/disclosure and ensure a link between cost recovery and cost causation.*
- *Consider insurance options as ways of mitigating risk and accreditation fees*
