

# **At-Large CPWG Process for Comment**

**Jonathan Zuck and All**

At-Large Consolidated Policy Working Group (CPWG) Call

Wednesday, 11 September 2019

19:00 UTC

# Summary of Comments from the Google Doc

---

- ⦿ Need to emphasize CPWG's involvement in ICANN Public Comments related to policy; organizational/budget PCs to be deferred to other At-Large WGs or the ALAC
- ⦿ Question was raised regarding At-Large policy discussions within ICANN's remit; how to determine approach within CPWG whether something falls within scope (i.e. how to measure consensus)
- ⦿ Suggested "articulating the perspectives and rights of (Internet) end users" be noted within At-Large remit
- ⦿ Suggested "police and justice" be added to the graphic depicting "End User Experience Often 'Caught in the Middle'"
- ⦿ Suggested there be "explicit referral" to the CPWG Ingest Process on the CPWG Position Development Process diagram.
