# Introduction

---

- - On 22 December 2019, ICANN org published a draft FY21-25 Operating & Financial Plan and FY21 Operating Plan and Budget for public comment. These drafts were developed based on the approved FY21-25 Strategic Plan.
    - Since concluding the public comment process, the COVID-19 pandemic is having a significant and ongoing impact on the world's economy.
    - ICANN org expects that its planned activities and financial position for the remainder of fiscal year FY20 (ending 30 June 2020) and FY21 will be impacted.
    - ICANN org has developed a new set of financial projections, outlined in a second set of draft planning documents, as “proposed for Board adoption”, which have been published on the Public Comment page.
    - This webinar is to share the revised plans and to seek participation and feedback from the Community.

# FY21-25 Operating & Financial Plan

## “Proposed for Adoption”

# Introduction

---

FY21-25 Operating & Financial Plan includes descriptions of the major work ICANN org will undertake to achieve its Strategic Plan, operate the organization and implement its mission and mandate.

Functional Activities (35 in 5 groups)	Operating Initiatives (15)
<p>Activities of the Functions to:</p> <ul style="list-style-type: none"><li>• operate the organization, such as <i>Human Resources or Finance</i></li><li>or</li><li>• Implement ICANN's mission and mandate, such as <i>Contractual Compliance or the IANA</i>.</li></ul>	<p>The efforts of the Functions that focus directly on achieving the Strategic Plan.</p> <p>Some are not new but continued efforts toward key strategic directions.</p>

# FY21 – 25 Plan: Summary of Changes

---

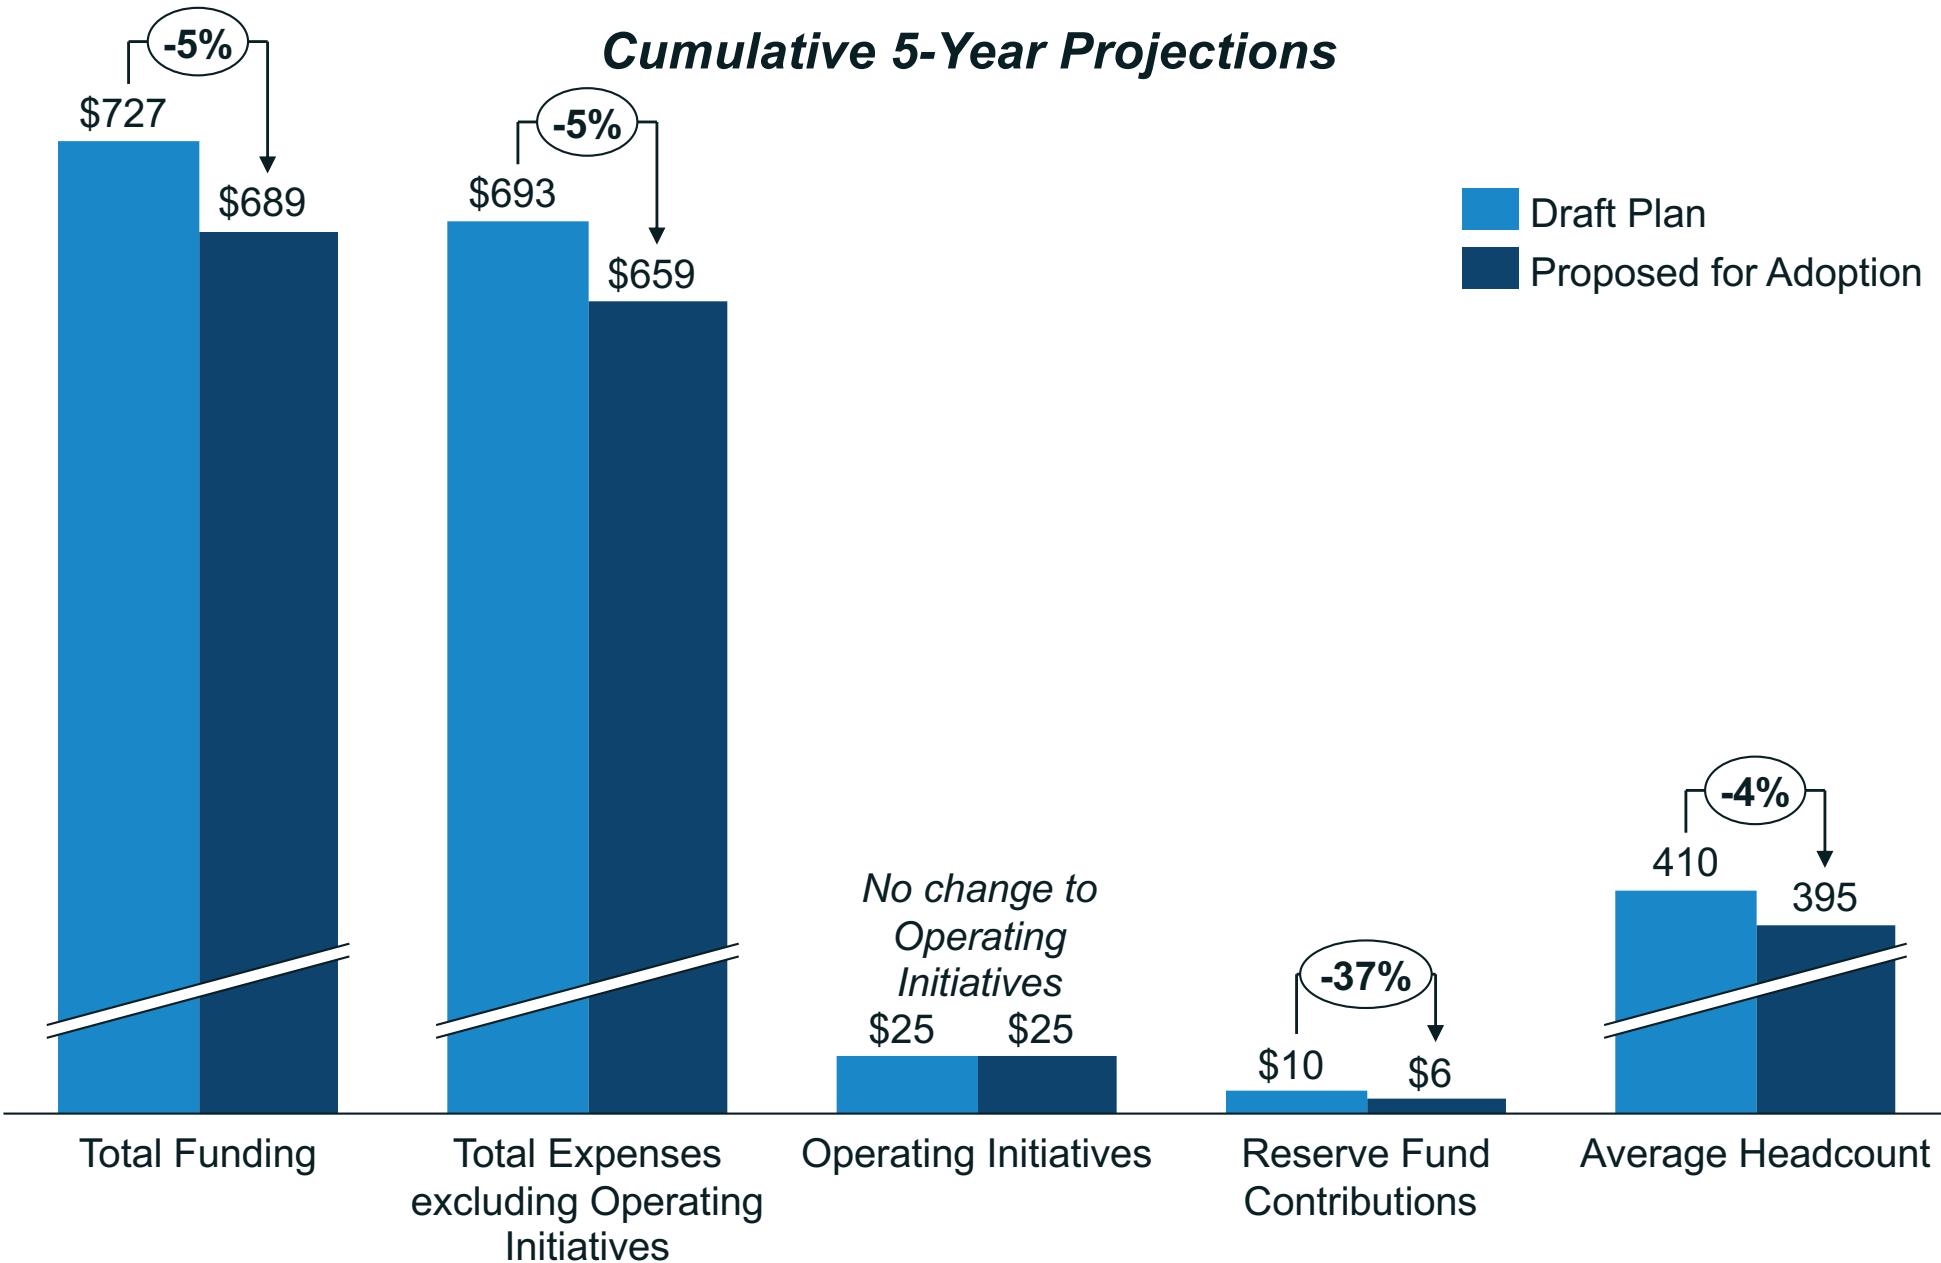

- - The FY21-25 Draft Operating & Financial Plan, published in December 2019, is still a useful reference point
    - ICANN plans to perform most, if not all, of the work in the plans
    - The Draft plans have been published with updates from the Public comments received
  - Reduction in Funding
    - Funding is expected to be -5% lower over the 5-year period
    - This is due to a reduction in domain name registrations and contracted parties in FY21 the first year of the 5-year plan.
    - Modest growth in funding is included in the 5-year plan for FY22 – FY25, however there is much uncertainty
    - The plans include recent development in funding on initiatives related to the security, stability, and resiliency of the DNS over the next five years
    - Updates to the 5-year Funding will take place during FY21

# FY21 – 25 Plan: Summary of Changes – cont'd

---

- ◎ ICANN org plans to balance its expenses with its projected reduced funding
  - ◎ Reduction in Travel Expense
    - ICANN expects no face-to-face meetings to occur before September 2020. Travel to resume slowly through FY21 under new health and safety conditions
  - ◎ New plan for proposed operations changes of functions supporting the work of the community through capacity-building, education, training, and communication
  - ◎ Reduction in Personnel Costs
    - Slower hiring of new positions, with an average headcount of 395 versus 410 previously
  - ◎ Delay of Operating Initiatives requiring incremental resources into FY22 (full amount will still be incurred over the five-year period)
  - ◎ Recommended delay of the decision to contribute to the Reserve Fund until after FY22

# FY21 Operating Plan and Budget

## “Proposed for Adoption”

# FY21 Published Draft vs Proposed for Adoption

---

- - The FY21 Draft Operating Plan and Budget, published in December 2019, has been revised due to the impact of the economic crisis
  - ICANN activities will be carried out under a principle of increased prudence, frugality, and with heightened conditions of necessity
  - All comments received during the public comment period (from 22 December 2019 to 25 February 2020) on the draft planning documents were addressed and did not require any material changes to such documents
    - The Draft documents subjected to public comment, amended as per above, are referred to in the New plans as they contain valuable information

(1) ICANN Operations cash expenses excludes Depreciation and Bad Debt.

(2) The FY21 contingency expense represents an amount of budgeted expenses unallocated to specific activities or departments. \$1.5M earmarked for GDPR legal fees in Contingency.

- FY20 is forecasted to end with a net excess of \$15.9M due to higher funding (despite an assumption of reduction in Q4) and lower expenses than the FY20 Adopted Budget
- FY21 Funding is projected to be 6% lower than FY20 Forecast as the economic impact is projected to affect ICANN org funding beginning in FY20-Q4
- FY21 Personnel costs are projected to increase due to inflationary increases and a modest increase in headcount
- FY21 Travel is higher as it assumes travel restrictions being relaxed and holding all 3 face-to-face ICANN Meetings whereas FY20 includes 1 face-to-face and 2 virtual meetings

# Funding and Cash Expense Trends

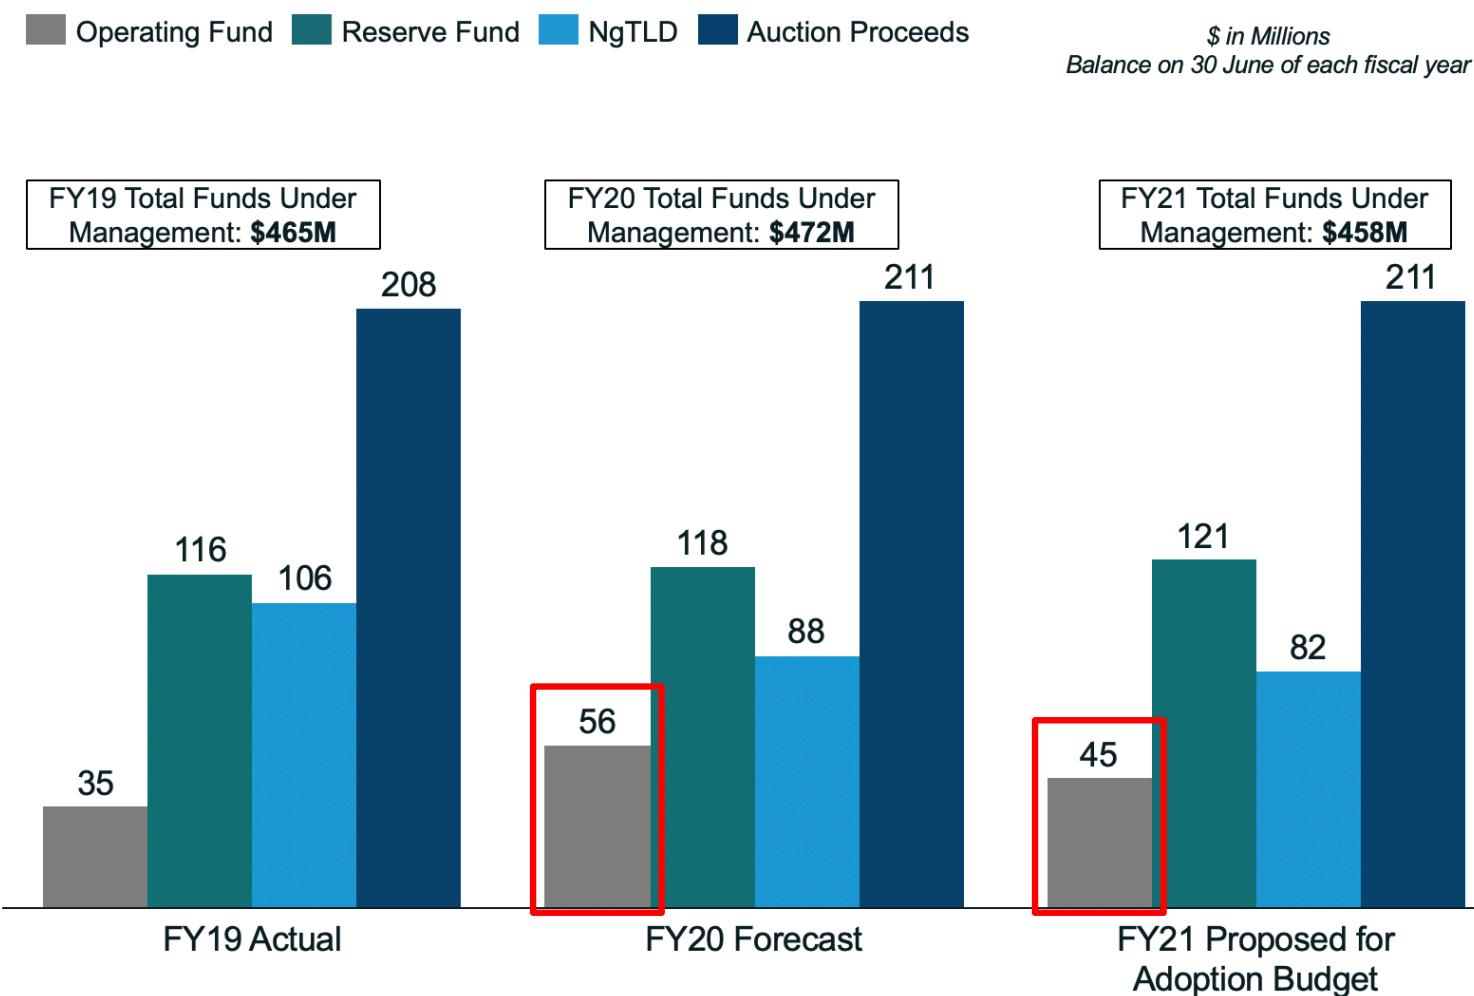

---

- FY21 Funding reflects economic crisis impact resulting from the pandemic
- FY21 Cash Expenses are balanced with Funding and are achievable given the trend of expenses in recent years

# Funds Under Management FY21 Proposed for Adoption

- FY21 Operating Fund balance is projected, in the base case scenario, to be above the target balance of \$35M despite the economic crisis primarily due to ending FY20 with a surplus

# Contingency and Activities in Progress

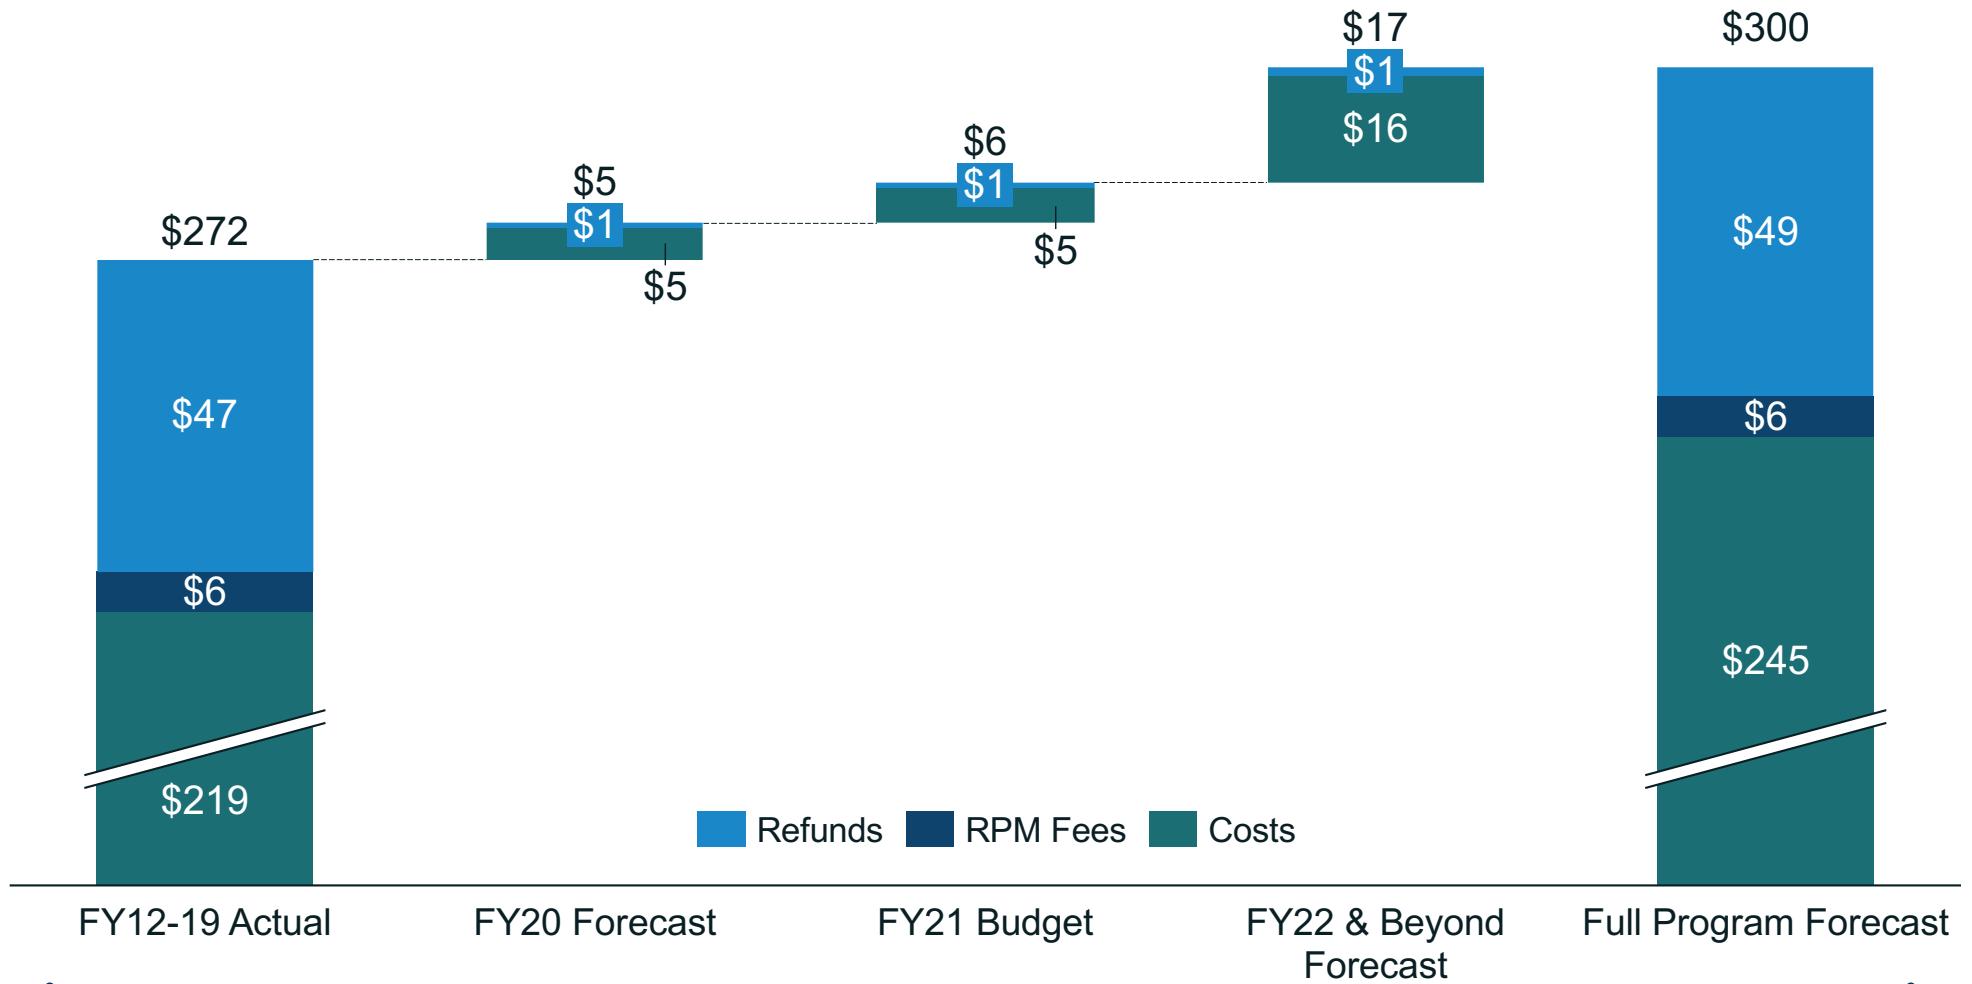

---

- Only activities supporting the implementation of Board-approved policies or review recommendations are specifically included in the FY21 Proposed for Adoption Budget
  - Implementation activities for policies or review recommendations not yet approved by the Board will be scheduled, if and when approved by the Board, on the basis of resources reallocated from other activities
- Contingency is an amount of expenses included in the budget, but not allocated to any specific activities
- The progress of the following key projects will be supported by staff and may trigger unbudgeted third-party expenses which would require contingency funding:
  - Operating Initiatives requiring resources incremental to prior years
  - New gTLD Subsequent Procedures policy development process (PDP)
  - Adopted recommendations from Specific and Organizational Reviews
  - Policy development and compliance required by GDPR.
  - The Cross-Community Working Group on Enhancing ICANN Accountability, Work Stream 2
  - Other unanticipated expenses

# New gTLD Program – Multiyear Forecast *(as of Dec 2019)*

- Application Fees Collected: \$361M
- Projected Evaluation Costs: \$300M
- **Projected Remaining Funds (to cover risks): \$61M**

*Remained unchanged  
vs published draft*

# Appendix

# Potential Implementation Projects and Activities

---

- ICANN org supports the community-based activities, which leads to reviews recommendations and cross-community working group recommendations, policy drafts, and advice recommendations.
  - At any point in time, there are such recommendations and policies that are at any of these stages of progress: initiation, development, finalization, board consideration, implementation planning, implementation.
  - As recommendations and policies move forward and reach the stage of Board consideration, ICANN org can then design the expected implementation work.
  - The resources supporting the implementation of these activities consist mainly of the ICANN org staff contributing as required based on the nature of implementation work.
  - Some additional specific resources may be required on a case by case basis. During the annual planning cycle, the implementation activities expected to be occurring during the year planned for are incorporated into the annual operating plan.

    - Application phase (with evaluation criteria)
    - Evaluation phase with 2-step review process: one by the Staff Assessment and one by the Executive team members
    - Presented to the BFC for recommendation for approval as part of the approval of the FY21 OP&B
  - ◎ A total of 35 Requests were submitted by 14 different organizations and evaluated by ICANN org
    - 16 requests are recommended for approval for a total of \$326K
  - ◎ Additional Budget Requests recommended for approval will be evaluated as part of the FY21 Forecasting process
