00:41:09 Heather Flanagan: Got it - thanks!

00:50:10 Zarko: sorry for being late

00:51:22 laurin: chat only to not disturb the call: you should have received an email with a survey link.

00:52:28 Jabhera Matogoro: I don't understand @Laurin

00:54:07 Danko Jevtovic: The email is in. I will not respond - I believe that in my liaison I should not influence teams view of selection of recommendations and the priorities.

00:54:35 laurin: Oh, apologies if this wasn't clear. to gauge importance and urgency of our recommendations, there is a survey going out to all. this will simplify our discussion.

00:56:05 laurin: Danko, whatever you prefer imho. I can, however, slice the data accordingly. ie you can give your opinion for information only if you want.

00:56:48 Danko Jevtovic: OK

01:01:02 jennifer.bryce: Here is the link to the CEO goals:

01:05:34 David Conrad: The facilitation function (the name has been changed numerous times) is under "DNS ecosystem Security Risk Management)

01:12:36 Steve Conte: URL David is referring to is:

01:12:37 Steve Conte: <https://ithi.research.icann.org>

01:22:42 Denise: Steve Conte, David Conrad: Thanks for talking to the SSR2. Since you didn't have time to get through all of your informal feedback, could you send an email with all of your questions and observations to the SSR2 this week?

01:27:37 Steve Conte: Thanks David, I meant to mention that in the beginning. I know that Heather has worked hard to remove that ambiguity in the document, but there

were still a few instances found (on the Dec 9 version) that still had a general reference to "ICANN"

01:27:53 Alain Patrick AINA: i have to leave due to a medical appointment. Thank you All

01:28:28 Steve Conte: Thanks Alain, hope it goes OK

01:31:16 Kaveh Ranjbar: I will have to leave for a RSSAC related call. Was a useful meeting, thank you all!
