09:36:44 From laurin : can anyone hear me?

09:36:57 From Jennifer Bryce : No Laurin

09:37:03 From Heather Flanagan : Laurin, we heard you but it introduced a lot of noise on the line

09:37:14 From laurin : hm.

09:40:07 From Danko Jevtovic : thanks Denise!

09:50:43 From Steve Conte : just to inform the dialog: ICANN has regular “Emerging Identifier Technology” sessions at ICANN meetings where we have reports from developers and implementors and encourage community discussion during these sessions

10:05:34 From laurin : sorry

10:26:17 From Danko Jevtovic : there will be an implementation team

10:46:51 From laurin : quickly popping it,

10:47:19 From laurin : \*out. quick in person chat

11:01:33 From Heather Flanagan : - mute yourself when you don't speak  
- introduce yourself when you speak  
- when you're on the call, focus on the call. Making tea or using the restroom while you are on a call using a bluetooth headset is really distracting  
- Keep your sentences short and pause regularly between ideas. This will allow people to jump in or ask questions.  
- If you are the call organizer, it is your job to call on people to participate if they are not speaking up and someone else is monopolizing the conversation.

11:01:41 From Heather Flanagan : Oops, wrong link!

11:06:47 From Naveed : Hello. I dont agree having a major change in the draft especially at this stage. we should not do it unless we get the public comments

11:07:47 From Danko Jevtovic : Current number of high-priority recommendations is 100+

11:10:40 From Denise : I agree with Naveed. I think we should consider the comments and then come back to priorities

11:11:42 From Danko Jevtovic : I would agree that issues/problems are more important than recommendations

11:12:26 From Ram Krishna Pariyar : I also agree with Naveed

11:17:03 From Naveed : I am not sure why dont we resolve this issue of prioritization once and for all. we keep discussing the same thing time and again. prioritization is quite relative term and it's not our job to consider the recommendations based on what the board would like to accept or not

11:17:44 From Naveed : if a disagreement I think we should go for a team vote to resolve the matter of prioritization

11:23:41 From Danko Jevtovic : its not that CCT where not accepted. its complicated

11:29:25 From Heather Flanagan : [https://docs.google.com/document/d/1qMD-XDgAvk-Rg\\_ARoF75b6pIJAbDbBa\\_PWv0blGAktY/edit](https://docs.google.com/document/d/1qMD-XDgAvk-Rg_ARoF75b6pIJAbDbBa_PWv0blGAktY/edit)

11:51:01 From Naveed : I think this rec 4 needs more explanation and rationale

11:53:29 From Naveed : the actual rationale might be lost in porting through so many documents

11:57:38 From Jennifer Bryce : Documents are posted here:  
<https://community.icann.org/x/WLnRAw>

11:57:41 From Jennifer Bryce : I will share to the list also

11:58:18 From Naveed : yes  
11:58:20 From Naveed : sure  
11:58:44 From Denise : Thanks Jennifer
