Approach to Policy Implementation

◎ ICANN Board Resolution 30 April 2014

Resolved (2014.04.30.03), [the Board hereby adopts the GNSO Council's unanimous recommendations on the Protection of IGO-INGO Identifiers in All gTLDs set forth in Annex A \[PDF, 74 KB\] attached hereto \(which includes the GNSO recommendations that are not inconsistent with the GAC's advice\)](#)

Resolved (2014.04.30.04), [the Board requests additional time to consider the GNSO Council's remaining unanimous recommendations](#) on the Protection of IGO-INGO Identifiers in All gTLDs, as set forth in Annex B [PDF, 90 KB] attached hereto, and will facilitate discussions among the relevant parties to reconcile any remaining differences between the policy recommendations and the GAC advice on the topic.

Resolved (2014.04.30.05), [the Board directs the President and CEO, or his designee, to develop an implementation plan for the recommendations adopted herein](#) pursuant to the ICANN Bylaws Annex A, Section 10 in consultation with the GNSO, and continue communication with the GAC and the community on such implementation.

Approach to Policy Implementation

Implementation Deliverables

- ⦿ **Implementation Procedures** – **Currently drafting**
 - Top-level reservation and exception procedure (deliverable 1.1)
 - 2nd Level reservation and exception procedure (deliverable 1.2)
 - 2nd Level 90-claims implementation procedures (deliverable 1.3)
- ⦿ **Lists of Identifier Labels & other pre-requisite for implementation**
 - RCRC Scope 1 indentifiers – **Almost Complete (quality issues)**
 - IOC indentifiers – **Complete**
 - IGOs Scope 1 indentifiers – **Challenged (missing add. 2 languages)**
 - INGOs indentifiers - **Challenged (non responsiveness)**
 - INGOs Contact Data - **Challenged (non responsiveness)**
- ⦿ **Consensus Policy**
 - Draft Consensus Policy Language
 - Public Comment Period

Timeline Assumptions (as of 22 Sept. 2015)

Current Issues and Challenges

Policy-related

- ⦿ Perimeter of protections: Identifiers vs. DNS labels
 - Final Report: consensus principle of “exact match” not further defined
 - Should protections include transliterations where relevant ?
- ⦿ Impact of outstanding Policy Recommendations on Claims implementation

Implementation-related

- ⦿ Choice of 2 languages by IGOs on GAC List
- ⦿ Management of Identifiers and Contact data for INGOs
 - List of Identifiers unavailable in processable format
 - UN ECOSOC CSOnet (identified as key partner) not responsive

Next Steps

- ⦿ **Meetings of the IRT**
 - Is Tuesday 16:00 UTC generally a good time for future meetings ?
 - Next meeting to be scheduled during ICANN 54 (or shortly afterwards)
- ⦿ **Expected input from the IRT over the next 10 months
(over mailing list, conference calls, face to face meetings)**
 - Contributions on Open Issues
 - Review of draft procedures
 - Review of lists of Identifier labels
 - Review of draft Consensus Policy language
 - Response to public comments
