Foundation and Existing Materials
1. UASG Technology Group already has a starter inventory. It is expected that this work will build on and include content already in that inventory.
2. UASG defines the ability to sent to or receive from EAI compatible systems is called “Phase1” support; the ability to host the EAI compatible mailboxes is called “Phase2” support. Additional Levels of Support may need to be defined when creating the inventories. See the following document for reference:
   a. UASG 021A\(^1\) Email Address Internationalization: Evaluation of Major Email Software and Services
   b. UASG 021B\(^2\) Email Address Internationalization (EAI): Evaluation of Major Email Software and Services
