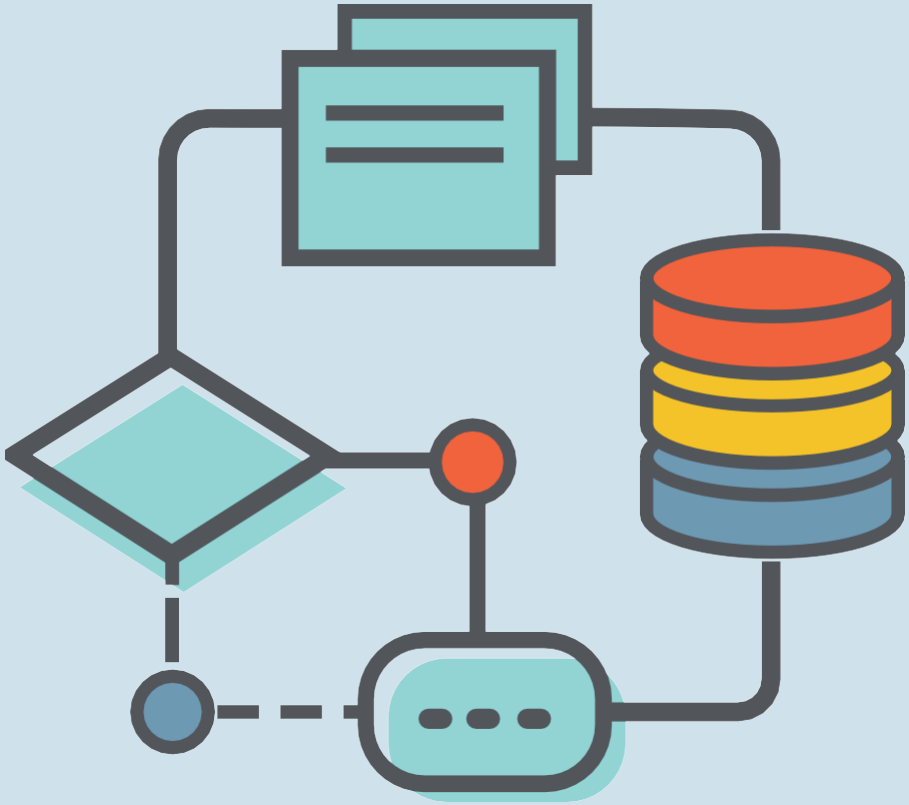
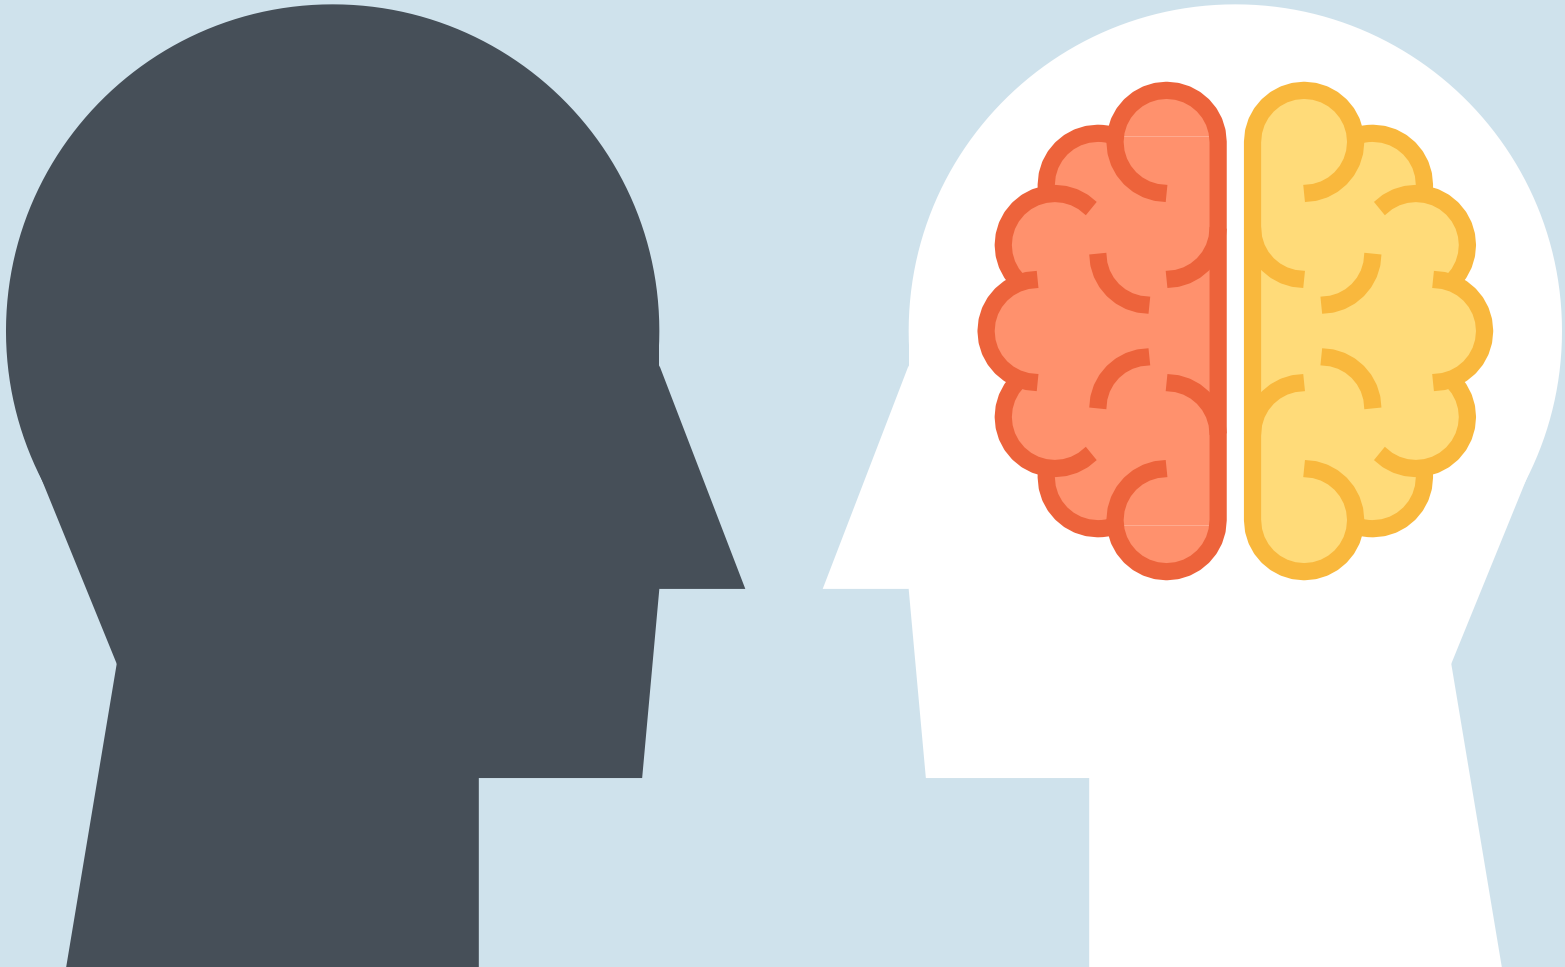
# How can I design an ICANN Learn Course?



# Course Objectives

- Inform the learner how to participate in ISPCP
- Explain the role of the ISPCP and how it fits into ICANN
- Elaborate on the process to join the ISPCP
- Explore leadership roles in the ISPCP

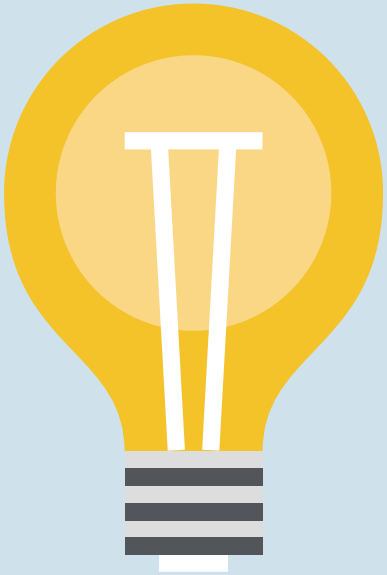
# Focus on the learner, not the instructor



# Intended learning outcomes:

Be realistic

Start with a verb



Take into account assessments

# Learning Outcomes

- Understand what the IPC is
- Recognize acronyms relating to the IPC and GNSO
- Understand the structure of the IPC
- Comprehend the different ways to participage in the IPC
- Understand the benefits to joining the IPC and how to join

# Consider learners' diverse needs

# Consider different approaches to learning

## Surface learning

Long videos

Excessive materials

Passive learning

## Deep learning

Short videos

Frequent brief assessments and opportunities for reflection on learning

Active learning
