00:41:56   Heidi Ullrich: At-Large Policy Statements: https://atlarge.icann.org/policy-summary - for more information on source of Talking Points.

00:45:14   Holly Raiche: Great point - better an open Board

00:45:41   Holly Raiche: Can we make that a policy issue for the CPWG?

00:45:47   Jonathan Zuck: Yes

00:47:38   Alfredo Calderon: CPWG = Consolidated Policy Working Group

00:47:42   Holly Raiche: @ JZ et all - check the Circle ID article - that has the speech by a lawyer talking about these issuee

00:48:49   Joanna Kulesza: @Holly this one you mean: http://www.circleid.com/posts/20200224_legal_enforceability_of_pic_proposed_by_ethos_for_dot_org/ ?

00:55:27   Heidi Ullrich: @All, time check - this session has 17 mins remaining. We cannot run over.

00:55:46   Herb Waye Ombudsman: back

00:56:01   Maureen Hilyard (ALAC):   Hi Herb

00:57:20   mscade: hi

00:57:35	Joanna Kulesza:	re: SubPro, again - this is just a recap of where we stand right now, not a final AtLarge position. There was a SubPro special CPWG call earlier this month. All are welcome to join this discussion.

00:58:00	Maureen Hilyard (ALAC):	@ Marilyn.. Great to see you

00:58:04	Holly Raiche:	By way of explanation - in contract law, the only people who can enforce a contract are the parties to the contract - and users are not signatories to the contract

00:59:38	Joanna Kulesza:	@Holly some argue contractual compliance is all we have in IG : https://global.oup.com/academic/product/internet-governance-by-contract-9780199687343?cc=us&lang=en& #NotAPlug Trying to say we might need to be creative here

01:00:13	Holly Raiche:	We absolutely need to be creative -

01:00:24	Nadira Al Araj: PICs is the area that of at-large highly engaged

01:00:26	Javier Rúa-Jovet:	I guess an adjudicative body or a court enforces, contract parties have the standing to bring the action...

01:00:29	Heidi Ullrich:	@All, Time check - 12 mins remaining and one item on the Policy Platform remaining - with two slide decks.

01:00:34	Maureen Hilyard (ALAC):	But as a user organisation, we can advise ICANN and its Board to include PICs into any future contracts - as the ALAC has already suggested to the Board

01:01:21	Holly Raiche:	@ Javier - correct. Under the dispute resolution process being talked about, a person harmed has standing - but the issue - how to prove harm in those circumstances

01:01:23	Joanna Kulesza:	@Heidi - 16 slides - 0,5 min per slide - we got this covered ;)

01:03:19	Heidi Ullrich:	Thanks, Joanna! :)

01:03:19	Holly Raiche:	silence??

01:03:36	Marita Moll:	Maureen had her hand up

01:05:04	Joanna Kulesza:	emphasis on "wherever possible"

01:06:06	Chokri ben romdhane:	hi all

01:06:22	Joanna Kulesza:	hi Chokri

01:07:52	Chokri ben romdhane:	hi Joanna nice to be in touch with you

01:10:39	Cheryl Langdon-Orr:	the 1st SubPro session is ending shortly so do watch for the next 2 tomorrow and Thursday

01:11:09	Maureen Hilyard (ALAC):	This session is winding up now...

01:12:17	Heidi Ullrich:	We can try to include the Policy Platforms to the wrap up on Thursday

01:12:29	Cheryl Langdon-Orr:	bye ... backnin 12 mins

01:12:29	John More:	excellent

01:12:33	Heidi Ullrich:	Thanks, All

01:12:37	Heidi Ullrich:	Next call - 15 mins
