12:58:42 From vandascartezini : please NO!!!

12:59:39 From Wolfgang : Hi everybody. Back from "virtual Cancun" I worked better than expected. Interrsting experience. An Option for the future (to reduce F2F Meetings to two per year plus one V-Meeting?).

13:00:16 From Sebastien Bachollet : I hope not Wolfgang

13:00:52 From Leon Sanchez : hello everyone!

13:01:03 From Leon Sanchez : I hope everyone got home safely

13:01:33 From Bernard Turcotte : Jaap is a member

13:02:10 From Jaap Akkerhuis : The virtual meeting worked the best when it was a “show and tell” type of meetings so interaction is low.

13:02:15 From herb.waye : Don’t you people ever sleep?

13:02:27 From Daniel K. Nanghaka : Yes, that is right interaction was low

13:02:36 From Daniel K. Nanghaka : We do sleep and work

13:02:39 From Jaap Akkerhuis : Yes. I’ve always been a member

13:03:02 From Yvette Guigneaux : Hi Jaap - I’m covering for Brenda not usually on this call
my apologies - welcome

13:03:11 From Bernard Turcotte : am I the only one losing Cheryl

13:03:45 From Daniel K. Nanghaka : The connection is breaking

13:03:54 From vandascartezini : no impossible

13:03:57 From Bernard Turcotte : Yvette will dial you Cheryl - we cannot make out anything you are saying

13:04:08 From vandascartezini : is the virus

13:05:10 From vandascartezini : I was just talking with Yvette that the connection experience during the 67 meeting was just great !! at least for me here

13:13:15 From vandascartezini : ok for me

13:14:02 From Cheryl Langdon-Orr : I have switched to an ADSL2 connection from another building (cat cable now running between the houses) hopefully this helps and that my grandkids won't wake up yet and grab for their gaming devices phones and computers/Netflix too soon as G'ma is stealing their bandwidth!

13:16:22 From vandascartezini : yes we have discussed this one before

13:16:29 From Wolfgang : As I said in previous discussion, it would be good to have data about the use of the Translation service

13:17:07 From Daniel K. Nanghaka : Could this data be readily available @Wolfgang?

13:18:18 From Wolfgang : @ Daniel: No idea, but I think there are measurement mechanisms available how services are used.

13:19:54 From Daniel K. Nanghaka : Probably staff can help here to prove whether the information is available

13:21:14 From vandascartezini : what it means is not clear

13:25:30 From Bernard Turcotte : Vanda - hand

13:26:05 From vandascartezini : sorry bernie

13:30:42 From Sebastien Bachollet : <https://www.icann.org/accountability-indicators>

13:33:41 From Cheryl Langdon-Orr : This certainly helps make it obvious #Bernie thanks
Seb and Bernie

13:41:06 From Daniel K. Nanghaka : I believe there should be an explanation for the change in the accountability indicators

13:42:08 From Cheryl Langdon-Orr : SHOW both images as data points

13:42:11 From Cheryl Langdon-Orr : Yes great

13:42:19 From Daniel K. Nanghaka : <Question> Can we prompt for the reason in the changes? </question>

13:43:45 From Cheryl Langdon-Orr : Point is @Daniel in a published AI no one should *need to prompt* changes should be recorded . explained and transparent with a rationale reason provided

13:44:54 From Daniel K. Nanghaka : I agree, and probably earlier versions documented what has improved, added or substractions

13:45:26 From Sebastien Bachollet : It is in those 2 ones 2019/2020 I suggest to have the 2 images of the graphs you have captured B.

13:48:05 From Leon Sanchez : I will switch from computer to phone as I need to go pick up my daughter from school. Might have an unstable connection

14:59:08 From Cheryl Langdon-Orr : gremlins trying to find a new home perhaps @Yvette

14:59:19 From vandascartezini : during ICANN 67 the KAVUSS (IRAN GAC member)raised the point -he said was already asked to the baord - but never happened - (Ido not remember well if we saw this before - to respond to all the items in each communique in a written form) wills ee where it can be seen
