Reporting period  
May - June 2022

**Dear EURALO and At-Large community Members,**

Our last meeting in person was ICANN66 in Montreal in November 2019. It was also the time for ATLAS III (At-Large Summit).

I welcome you to the long-awaited hybrid ICANN74 policy meeting in The Hague, virtually and in person! I hope this meeting will meet your expectations for the right way of discussions, for the content of public and personal meetings! You can follow the schedule [here](#).

I'd like to express my gratitude to the ICANN At-Large staff for publishing the agenda of [At-Large ICANN74 sessions and short remarks from our leaders!](#)

I also hope that the participants of the ICANN Fellowship and ICANN NextGen program from Europe and from all over the world will join us.

Let's this meeting be the bright start (restart) of your active participation in the Euralo, At-Large, ICANN work!

*I would like to give a secret: EURALO General Assembly will take place in Brussels the first week of October 2022. Be ready.*

**Sébastien Bachollet**  
Chair of EURALO

The image shows a composite of two screenshots. The top screenshot is the homepage of the Internet Society Belgium Chapter, featuring a navigation menu with items like HOME, ACTIONS, EVENTS, BLOG, PROJECTS, JOIN, ABOUT US, and ENGLISH. A prominent banner on the left reads "BE SAFE ON INTERNET" with the text "Be safe with Internet - no virus! Cybersecurity, privacy and trust, for the good of all, as basements of Internet. Let's all work together." The bottom screenshot is a browser window displaying the isTrust website. The page title is "isTrust" and the subtitle is "Verify the trustability of any website". There is a "NEW RELEASE" badge and a "Get the add-on" button. A browser extension popup is visible on the right, showing details for the "isTrust" extension, including its domain "istrust.org", update dates of "September 7, 2021", and a "Secure" communication status.

Today we would draw your attention to the activities of ALS Euralo - [Internet Society Belgium Chapter](https://www.istrust.org/), which has developed and proposed a simple, open and clear solution to help people in their trust of the DNS. We thank our colleagues for such useful and actual initiative!
