

I graciously accept the nomination to NomCom from APRALO for a second term. While the first year is more of a learning experience, I have attempted to network and reach out to community members in APAC and encourage eligible candidates to apply for the various positions, actively participate in the NomCom calls and discussions, keep the community updated as much as possible, while maintaining confidentiality of the process on the developments related to NomCom2020.

If nominated by ALAC for a second term, based on the experience of first term, I would attempt to lead in committee roles and functions, continue outreach initiative to encourage eligible candidates from the region to apply and fulfill the responsibility of a NomCom member to work with the other committee members to select appropriate candidates for the leadership positions.
