16:25:04 From vandascartezini : no problem

16:32:46 From Cheryl Langdon-Orr : This will test the shepheard sytem perfectly then León :-)

16:33:07 From Cheryl Langdon-Orr : typos sorry

16:33:10 From Daniel K. Nanghaka : At this point we should wait for the Board feedback

16:33:37 From Cheryl Langdon-Orr : Much of this goes to Implementation and Implementation Guidance

16:34:46 From León Felipe Sánchez Ambía : Correct Cheryl

16:35:01 From Daniel K. Nanghaka : Am looking forward to the implementation plan

16:35:18 From Cheryl Langdon-Orr : Indeed @Daniel ;-)

16:35:18 From Wolfgang : @ Leon: The concerns of the Board can not be the guideline for our work. The Board has to think about why we propose a "holistic review". In my eyes, this is a missing link in the accountability mechanisms, which has been introduced after the IANA Transition and this gap has to be closed. This is part of the needed checks and balances which is key for ICANNs work in the coming years.

16:35:40 From Adetola Sogbesan : Agreed completely, Seb. Thanks a lot!

16:35:45 From Cheryl Langdon-Orr : Well Noted @Wolfgang

16:36:11 From Adetola Sogbesan : Wolf captured it so well too...

16:36:30 From León Felipe Sánchez Ambía : Agree Wolfgang. Don't shoot the messenger. I'm just making you aware of the concerns that remain

16:37:55 From Osvaldo Novoa : @Wolfgang, I agree with you that the Holistic Review might be a missing link in the accountability mechanisms, but as a complement to the Organizational Reviews. You are adding a missing link and eliminating 3 or 4 existing links.

16:38:33 From Cheryl Langdon-Orr : Undertood @León and there is this time (unlike ever before) an opportunity with full transparent processes more interactive and Guided Implementation from our Report as designed in the new Guidelines we are working with

16:39:18 From vandascartezini : good idea Larisa ! I believe we will certainly open to do so

16:39:22 From Cheryl Langdon-Orr : Happy to assist the outreach and engagement @Larisa, again a use for the Shepherds

16:39:51 From Daniel K. Nanghaka : If you don't trust the messenger then why would you trust the message - we have the process that was followed, reviews were analysed hence the Board will give feedback on the process - then we have the feedback which devise the next steps

16:39:58 From avri doria : webinars are a good thing.

16:40:35 From Wolfgang : @ Osvaldo: I do not propose an eiomination of the existing Reviews. What we proposed is a more effective reorganisations of the existing processes which are too complex to produce reasonable results.

16:41:02 From Cheryl Langdon-Orr : Bernie tells is p82 now ficed SeB

16:42:58 From Michael Karanicolas : I can confirm there's no issue with mine.

16:43:23 From Osvaldo Novoa : No issue from me either

16:44:02 From vandascartezini : ok for me !!!

16:49:05 From Cheryl Langdon-Orr : Been great to have you with us @Herb

16:49:25 From Wolfgang : I expected something different. But as it stands now it is ok, taking into account the complicated circumstances. It is another "stumbling step" forward", to quote Bill Clinton from San Franciscos ICANN Meeting. More steps has to follow.

16:49:52 From Cheryl Langdon-Orr : Indeed Many more Steps to Follow My Friend @Wolfgang
