- ICANN org expects that its planned activities and financial position for the remainder of fiscal year FY20 (ending 30 June 2020) and FY21 will be impacted.
- ICANN org developed a new set of financial projections and presented these to the Board and Community in early May and were adopted by the Board shortly after.
- This webinar is to recap the approved plans (set to go into effect 1 July 2020 pending the Empowered Community process) and to seek participation and feedback from the Community.

Adopted FY21-25 Operating & Financial Plan

FY21 – 25 Plan: Summary of Changes

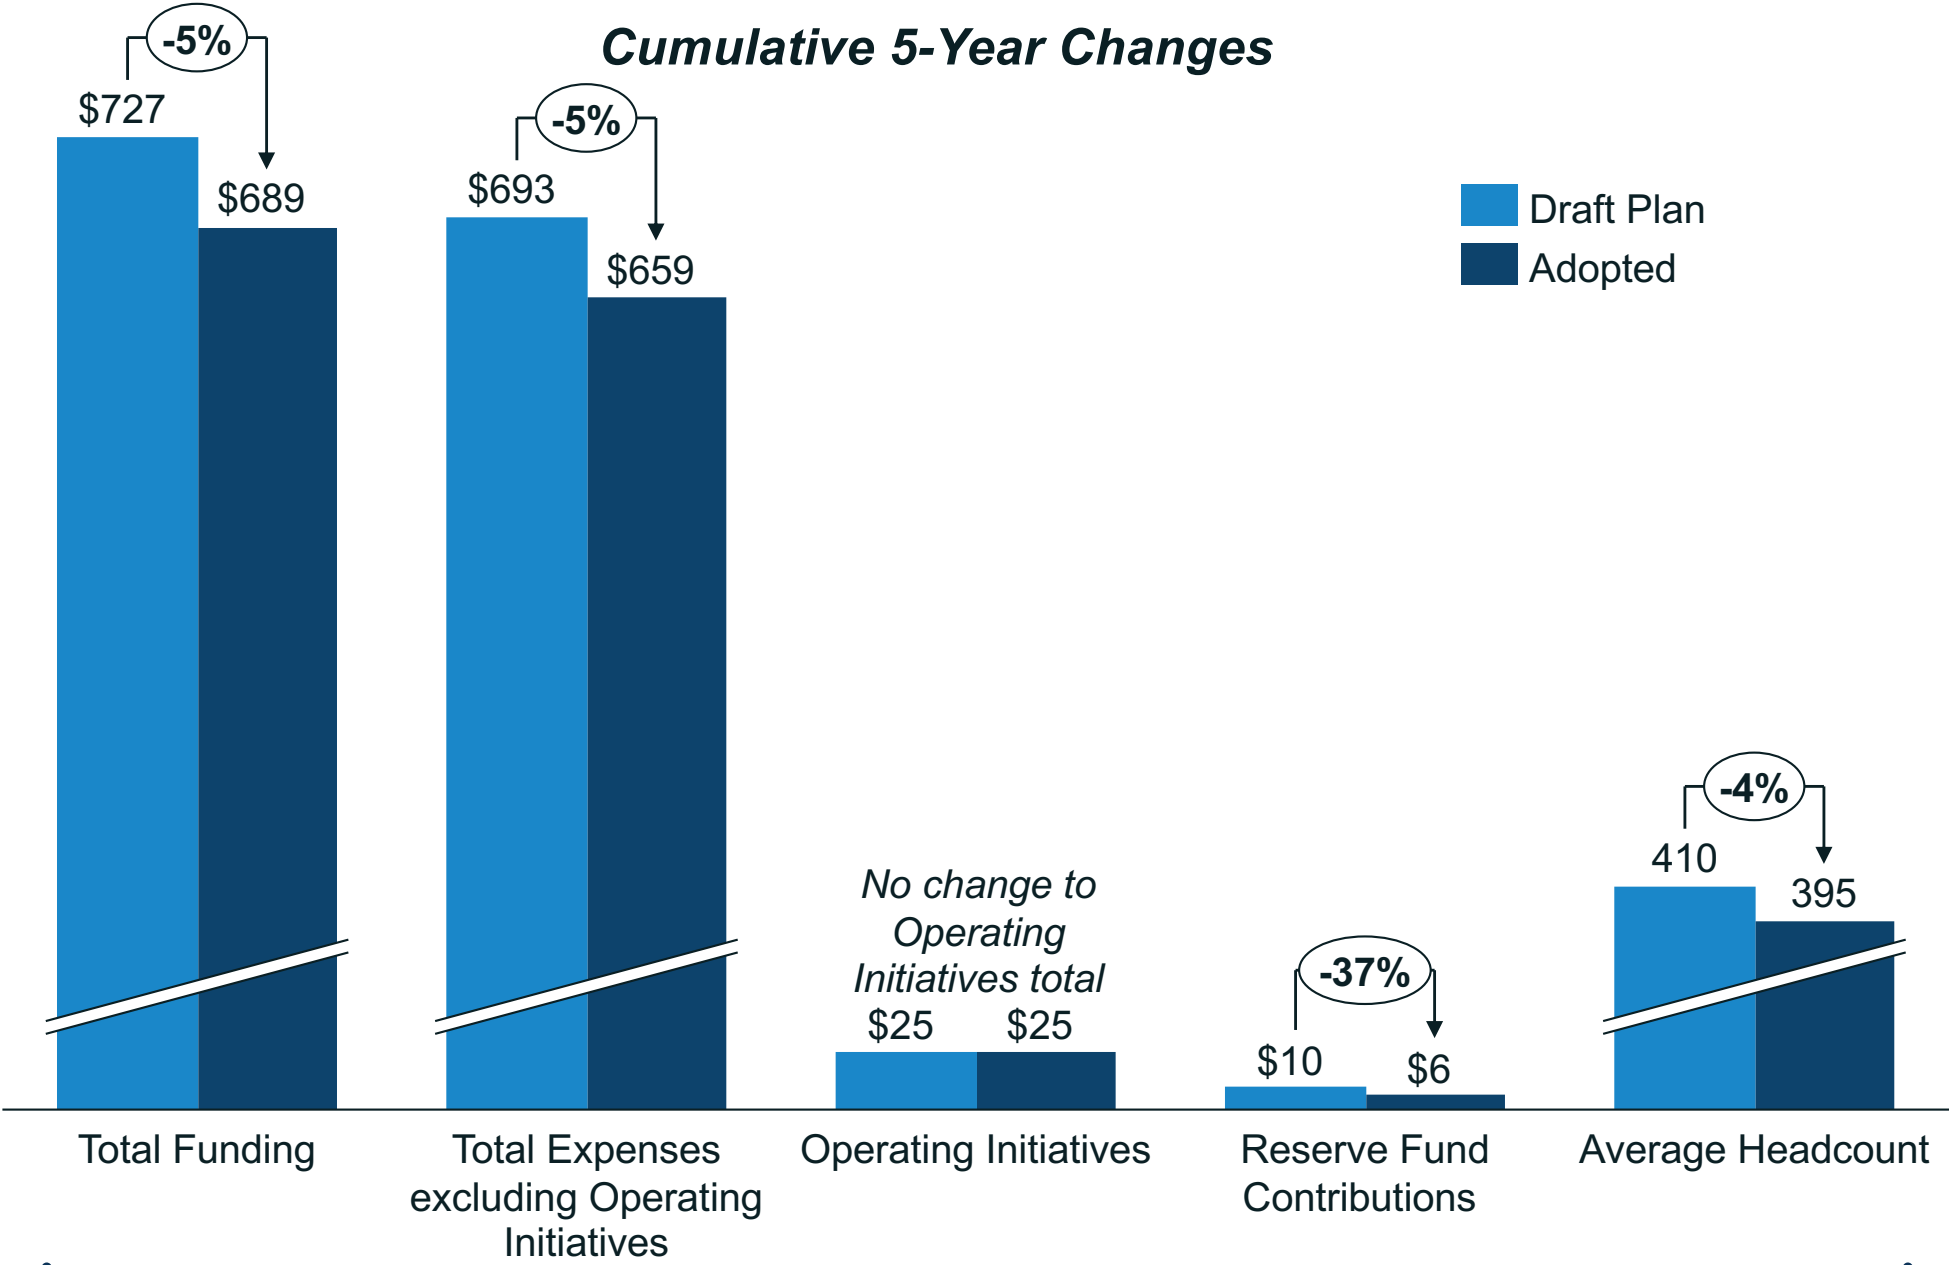

- ⦿ The FY21-25 Draft Operating & Financial Plan, published in December 2019, is still a useful reference point
 - ICANN plans to perform most, if not all, of the work in the plans
 - The Draft plans have been published with updates from the Public comments received
- ⦿ Reduction in Funding
 - Funding is expected to be -5% lower over the 5-year period
 - This is due to a reduction in domain name registrations and contracted parties in FY21 the first year of the 5-year plan.
 - Modest growth in funding is included for the remaining years (FY22 – FY25), however there is much uncertainty
 - The plans include recent development in funding on initiatives related to the security, stability, and resiliency of the DNS over the next five years
 - Updates to the 5-year Funding will take place during FY21

FY21 – 25 Plan: Summary of Changes – cont'd

- ⦿ ICANN org plans to balance its expenses with its projected reduced funding
- ⦿ Reduction in Travel Expense
 - ICANN expects no face-to-face meetings to occur before September 2020; travel to resume slowly through FY21 under new health and safety conditions
- ⦿ New plan for proposed operations changes of functions supporting the work of the community through capacity-building, education, training, and communication
- ⦿ Reduction in Personnel Costs
 - Slower hiring of new positions, with an average headcount of 395 versus 410 previously
- ⦿ Delay of Operating Initiatives requiring incremental resources into FY22 (full amount will still be incurred over the five-year period)
- ⦿ Recommended delay of the decision to contribute to the Reserve Fund until after FY22
