These high-level notes are designed to help SSR2 Review Team members navigate through the content of the call. They are not meant to be a substitute for the recording or transcript, which are posted on the wiki here: <https://community.icann.org/x/RYM4C>.

The SSR2 Review Team undertook the following during this session:

1. Welcome, roll call, SOI updates

See attendance record above. No SOI updates provided.

2. Abuse team public comment response document (see [here](#))

Note – this agenda item was discussed after agenda item 3 below. Denise presented the subteam’s overall approach to addressing public comments. She noted that in many cases the public comments that opposed the recommendations were based on a misunderstanding or misinterpretation of the recommendations. In these cases, the subteam intends to provide clarifications. In other cases, the commenter does not agree with the recommendation. The subteam proposes the SSR2 RT sticks to the original direction of the recommendation. No team members on the call disagreed with the approach.

Action item: Russ to send a note to the SSR2 RT email list to advise the whole team of the agreement taken on the call to the direction of the Abuse subteam, and to ask for team members to raise any issues or concerns on list.

3. Risk team (includes Kerry-Ann’s text on the link between CISO and CDO)

Note – this agenda item was discussed before agenda item 2 above. Laurin provided a high-level overview of the markup in the risk text document [here](#), and noted that no changes had been made to the public comment response spreadsheet [here](#) since the team last discussed the document. He noted that the document has been shared in multiple emails and discussed during several calls in the past few weeks. The team members on the call reached general agreement on the text, noting that changes will be possible as the text will be reviewed again at

a later date once the full report text is closer to completion. Kerry-Ann's changes were not discussed; these will be reviewed on the call next week.

Action item: Russ to send a note to the SSR2 RT email list to advise the whole team of the agreement taken on the call to the direction of the Risk subteam, and to ask for team members to raise any issues or concerns on list.

4. AOB

None raised.

5. Confirm action items / decisions reached

Action items and decisions were read for the record.
