The SSR2 Review Team undertook the following during this session:

1. Welcome, roll call, SOI updates

See attendance record above. No SOI updates provided.

2. End of daylight savings time - discuss if UTC call time should change for plenary meetings

The team discussed and agreed that the call time will be moved to 15:00 UTC as of the 5 November plenary.

Action item: Brenda to update calendar invites to reflect the revised meeting time.

3. Subteam updates (see subteam status spreadsheet [here](#)):

- Abuse subteam: Laurin presented an overview of the abuse subteam text, see the document [here](#). Team members shared comments on the call, including:
 - Concerns with the statement noting this set of recommendations as the highest priority in the report.
 - The team should consider challenges with implementing the recommendations as ICANN Compliance cannot make unilateral changes to contracts, and which recommendations will have to go through a PDP process.
 - Regarding the DAAR recommendation, a question was asked about how it differs from the recommendation that was removed from the report previously.

Russ asked team members to make comments in the document ahead of the team's next call on 5 November so that they can be discussed during the meeting.

Action item: Team members should make comments in the abuse [document](#) ahead of the team's next call on 5 November.
