Agenda Item #2

Additional input needed on upcoming training needs

NomCom support staff is in the process of defining the training needs for the upcoming 2021 NomCom, keeping in mind the recommendations 2, 3, and 4. While no actual costs have yet been defined, the recommendations will be discussed in the coming weeks with the NomCom leadership and best efforts will be made to fulfill in the FY21. After the training needs and requirements have been defined, and costs have been projected, staff will be able to provide more information.

In the meantime, NomCom Support Staff is asking whether you have **any additional input you would like to be considered as the upcoming training needs are being defined, for example, are there any pain points within the NomCom that you would like to see addressed through training?**

For reference, here are the relevant recommendations:

- **Rec. 2:** *Implement and formalize training to further NomCom members' understanding of the roles and responsibilities of Board directors and the practices of high-performing Boards at other nonprofit organizations.*
- **Rec. 3:** *Implement and formalize training for NomCom leadership to further their understanding of their roles, authority, and responsibilities, and confirm or appoint the next Chair earlier in the cycle.*

Email from Jay Sudowski (28 September 2020)

One recurring issue this year is the lack of formalized communication channels between NomCom and the Board. In fact, the situation is so dire that NomCom appointed Board members have essentially taken a position to recuse themselves from any NomCom related matters, even though the matters have been logistical in nature.

IMO, the Standing Committee could perhaps serve as an official communications channel between the NomCom and the Board in a formalized manner. Otherwise, I have the following input on the other tasks noted:

Oversee continuous improvement and one-time deviations to the NomCom Operating Procedures

- Just to clarify, this assumes that the NomCom itself will still have autonomy over the operating procedures?*

Capture interview questions asked by the NomCom, and seek feedback from the NomCom on usefulness of questions

- Often times the questions are ad-hoc in nature and/or the language is tweaked at the last minute. However this is implemented should ensure that the NomCom still has the flexibility and authority to ask whatever interview questions they need to during an interview.*

WS2 Recommendation 7

Recommendations to improve staff accountability

7.1. To address the lack of understanding of the existence and/or nature of existing staff accountability mechanisms the following actions should be taken:

7.1.1. ICANN organization should improve visibility and transparency of the organization's existing accountability mechanisms, by posting on icann.org in one dedicated area the following:

7.1.1.1. Description of the organization's performance management system and process

7.1.1.2. Description of how departmental goals map to ICANN's strategic goals and objectives.

7.1.1.3. Description of The Complaints Office and how it relates to the Ombuds Office

7.1.1.4. Organization policies shared with the CCWG-Accountability during the course of the WS2 work

7.1.1.5. ICANN Organization Delegations document

7.1.1.6. The roles descriptions included in this overall report

7.1.1.7. Expectations and guidelines regarding the development of staff reports for Public Comments, or staff response to Community correspondence.

WS2 Recommendation 7

7.1.2. ICANN organization should also evaluate what other communication mechanisms should be utilized to further increase awareness and understanding of these existing and new accountability mechanisms.

7.2. To address the lack of clearly defined, or broadly understood, mechanisms to address accountability concerns between community members and staff members regarding accountability or behavior:

7.2.1. ICANN organization should enhance existing accountability mechanism to include:

7.2.1.1. A regular information acquisition mechanism (which might include surveys, focus groups, reports from Complaints Office) to allow ICANN Organization to better ascertain its overall performance and accountability to relevant stakeholders.

7.2.1.1.1. The group notes that several new mechanisms are now established but have not yet been exercised enough to determine effectiveness or potential adjustments. The evaluation mechanism proposed here would be helpful in determining effectiveness of these recent mechanisms before creating yet more mechanisms that may turn out to be duplicative or confusing for the organization and community.

7.2.1.2. Results of these evaluations should be made available to the Community.

WS2 Recommendation 7

7.2.2. Consistent with common best practices in services organizations, Standardize and publish guidelines for appropriate timeframes for acknowledging requests made by the community, and for responding with a resolution or updated timeframe for when a full response can be delivered. ICANN organization should include language in the performance management guidelines for managers that recommends people managers of community-facing staff seek input from the appropriate community members during the organization's performance reviews. Identification of appropriate community members, frequency of outreach to solicit input, and how to incorporate positive and constructive feedback into the overall performance review should be at the discretion and judgement of the personnel manager, with appropriate guidance from HR as necessary. Such a feedback mechanism should be supplemental to the existing mechanisms available to the community to provide input on ICANN staff performance, including direct communication to specific staff member, their personnel managers, senior executive staff, Board directors, and the Complaints Officer.

WS2 Recommendation 7

7.3.ICANN Organization should work with the community to develop and publish service level targets and guidelines (similar to the Service Level Agreement for the IANA Numbering Services) that clearly define the services provided by ICANN to community as well as the service level target for each service. In this context:

7.3.1. ICANN should work with the community to identify and prioritize the classes of services for which service level targets and guidelines will be implemented, and to define how service level targets and guidelines will be defined.

7.3.2. Develop clear and reasonable guidelines for expected behavior between ICANN organization and the community for those newly-identified activities.

7.3.3. Develop and publish the resulting service levels, targets and guidelines in a single area on icann.org. These targets and guidelines should also inform any regular information acquisition mechanism described in recommendation 2 of this report.

Review of Other Recommendations

Rec. 22: The NomCom should provide consistent interview questions and an interviewer evaluation form for the candidates interviewed during the deep-dive phase and the final face-to-face interviews.

5	Each new NomCom can generate its own questions as well as pull from the 'library' to conduct a 'semi-structured' interview.	✗	Q2-2021
6	Instruct Standing Committee to capture the actual questions asked, scrubbing them of all identifying personal data, used at all stages, as well as seek feedback from each NomCom to assess usefulness of questions and update evaluation tool kit if and when needed.	✗	TBD

Review of Other Recommendations

Rec. 22: The NomCom should publish additional data on the candidate pool and the recruiting source of candidates.

1	Work with ICANN org to establish what data about the candidate pool has been published over the past five years.	✓	Q4-2019
2	Work with ICANN org to determine what non-confidential, non-identifiable data has not been made public and why.	✓	Q4-2019
3	Consult with the wider ICANN community what additional non-confidential, non-identifiable data points should be collected and published.	✗	Q4-2020

5	Coordinate with ICANN org to assure the additional data is captured and published.	✗	Q1-2021
6	Instruct Standing Committee to oversee the continuous publication of data, as defined, and to ensure analytics/trend analysis is conducted to decide if adjustments should be made (and if so what kind) for future NomComs.	✗	TBD

#	Description	Status ✓ 🔄 ✗	(Estimated) Completion Date
1	Consult with receiving bodies to understand what (if any) performance assessment of the body itself is conducted and what skill set needs derive from that (or any other assessment) for future NomCom appointees, to avoid creating a new line of assessment or review of the receiving bodies.	✓	Q4-2019
