Introduction to ICANN At-Large

The ALAC vs At-Large Community

- The ALAC refers to the 15 members of the At-Large Advisory Committee (ALAC)
- The At-Large community refers to the ALAC plus the Regional At-Large Organizations consisting of At-Large Structures (ALSes) and unaffiliated members

A globally dispersed bottom up structure

At-Large Regional Policy Engagement Program (ARPEP)

Goal: Joint approach to At-Large community membership management.

Plan to strengthen engagement between At-Large staff, Regional GSE staff and ICANN's regional work and participation in policy advice activities

Program launched officially in April 2020 with calls with GSE and RALO leaders to streamline, synchronize and coordinate outreach and engagement activities.

Collaboration with Global Stakeholder Engagement

Regional VPs advise on all ALS Applications

Regional VPs approve the RALOs yearly Outreach and Engagement Strategies (required for CROP funds approval)

RALO members participate actively in the formulation and execution of ICANN 5 year Regional Strategies

GSE and Community members participate jointly in ICANN meetings readouts

RALO members participate in Roadshow and Outreach activities

GSE and At-Large staff consult on an Ad-Hoc basis on regional issues.

At-Large Working Groups and 3 Tracks

There are established goals and objectives for each of the three tracks of At-Large activity, **Policy**, **Outreach and Engagement**, and **Operations**, so that there is clear direction and opportunity for member participation, engagement and leadership.

At-Large Working Groups are also organized under these three tracks.

1. **Policy**
2. **Outreach and Engagement**
3. **Operations**

Current Volunteer Opportunities

The best way to find out current volunteer opportunities is through participation in At-Large working groups. Some working groups help members to learn, discuss, and debate on ICANN policy issues on various topics and help the ALAC develop targeted policy advice. A lot more working groups tackle different aspects of organization building, not strictly focused on Internet policy. Unless stated otherwise, a great majority of At-Large working groups are open to everyone regardless of your membership status in At-Large. Contact staff@atlarge.icann.org if you are interested in joining a working group.

Resources for implementation of At-Large priorities

Several At-Large strategies and reports have been developed which should be considered in the implementation of At-Large activities.

- Communication Strategy and Outreach and Engagement Strategy
- At-Large Review Implementation Final Report
- Post-ATLASIII Survey Analysis and Recommendations

Identifying key priorities and applying strategies, in collaboration with with natural partners, may result in more effective and efficient implementation of At-Large activities at the regional and global levels.

Additional Budget Requests (ABRs) and the Community Regional Outreach Program (CROP) are resources for implementation of strategies.

- FY21 ABRs include: RALO Discretionary Funding, RTT,
- FY22 ABR process is now open
